Mrs. Réginald C. Vanderbilt selects OLD GOLD

"I wonder if one can really tell the difference, when blindfolded," was my first thought when invited to make this test.

"After smoking the four brands, as they were handed to me one after another, I discovered there was one that was noticeably smoother than the others and richer in taste.

"This proved to be an Old Gold. I hope I shall be able to buy them in Paris... they are surprisingly free from any trace of direct irritation and have a delightful aroma which to me is very important."
