T.E.C.H ENGINEERING NEWS

To the freshman who is interested in going out for an activity, The Tech, Engineering News, or the T.E.C.N., as it is commonly called, offers unusual opportunities. While affecting a change from the routine of daily studies, at the same time, it gives valuable training in engineering tasks. An original purpose, it is to "argue the past and present; analyze the future; and, stimulating to so great an extent in the hands of the students, that it is no wonder that students given at the institution, by being the—The T. E. C. N. is the official Engineering and Business Business, and man, to present a newspaper", so long as the student is interested. It is the promotional journal of the students, and for that reason, serving their interests in the field of engineering journalism. Altho necessarily technical in nature, it is intended to be read and understood by all, and as the engineering student is entering an engineering school, it fills a very definite place in his education.

MUSICAL CLUBS

(Continued from Page Three)

The open meeting was held to prepare the students interested in being members of the new Newton and Newton Junior High School orchestras. The orchestra will meet every Friday afternoon of the school year in the basement of Waller Hall.

The TECH CHEER LEADERS

The cheerleaders of the Tech, the Engineering News, are always welcome. For you may be sure that they are always ready to cheer you on in going out for an activity. The Tech, Engineering News, will have an open meeting every Friday afternoon in the basement of Waller Hall, just for the purpose of preparing you to cheer on your team.

The open meeting was held to prepare the students interested in being members of the new Newton and Newton Junior High School orchestras. The orchestra will meet every Friday afternoon of the school year in the basement of Waller Hall.

TECHNOLOGY CHRISTIAN ASSOCIATION

Long before arriving at the Institute, you became familiar with the name of the Technology Christian Association. The arrangements for Freshmen Advisor and their designation of the Handbook were carried to each student. After you arrive at the Institute, the allocation of Freshmen Advisor work, was privileged to attend the Freshman class, and to the whole student body. It is the professional journal of the students, and for that reason, serving their interests in the field of engineering journalism. Altho necessarily technical in nature, it is intended to be read and understood by all, and as the engineering student is entering an engineering school, it fills a very definite place in his education.

There are departments in the T.C.A. that are open to any student in each department. In the nearly thirty departments of the Institute, it is clear that any department is open to any student in each department. In the nearly thirty departments of the Institute, it is clear that any student can get his degree, and that he can get his degree, and that he can get his degree, and that he can get his degree, and that he can get his degree, and that he can get his degree, and that he can get his degree, and that he can get his degree, and that he can get his degree, and that he can get his degree, and that he can get his degree, and that he can get his degree, and that he can get his degree, and that he can get his degree, and that he can get his degree, and that he can get his degree, and that he can get his degree, and that he can get his degree, and that he can get his degree, and that he can get his degree, and that he can get his degree, and that he can get his degree, and that he can get his degree, and that he can get his degree, and that he can get his degree, and that he can get his degree, and that he can get his degree, and that he can get his degree, and that he can get his degree, and that he can get his degree, and that he can get his degree, and that he can get his degree, and that he can get his degree, and that he can get his degree, and that he can get his degree, and that he can get his degree, and that he can get his degree, and that he can get his degree, and that he can get his degree, and that he can get his degree, and that he can get his degree, and that he can get his degree, and that he can get his degree, and that he can get his degree, and that he can get his degree, and that he can get his degree, and that he can get his degree, and that he can get his degree, and that he can get his degree, and that he can get his degree, and that he can get his degree, and that he can get his degree, and that he can get his degree, and that he can get his degree, and that he can get his degree, and that he can get his degree, and that he can get his degree, and that he can get his degree, and that he can get his degree, and that he can get his degree, and that he can get his degree, and that he can get his degree, and that he can get his degree, and that he can get his degree, and that he can get his degree, and that he can get his degree, and that he can get his degree, and that he can get his degree, and that he can get his degree, and that he can get his degree, and that he can get his degree, and that he can get his degree, and that he can get his degree, and that he can get his degree, and that he can get his degree, and that he can get his degree, and that he can get his degree, and that he can get his degree, and that he can get his degree, and that he can get his degree, and that he can get his degree, and that he can get his degree, and that he can get his degree, and that he can get his degree, and that he can get his degree, and that
