THE TECH

Proposals Would Spread Activities Over Long Period

Innovation Is Caused Chiefly By Lack Of Support Of Student Body

(Continued from Page One)

and to support a possible remedy.

Virlig W. McDaniel, '30, as chairman, Donald R. Funk, '30, Robert W. Reynolds, '30, and W. E. F. Boyes, '30, as the committee. Since then the group has been working on the present unsatisfactory conditions of activities. They have decided that it might be advisable to alter the present program.

First of all it is understood that the committee which will take the place of the Activities Committee and will supervise a complete program of activities in every way.

The idea is to give the students more choice in the activities which they can take part in. The committee will give them a certain amount of control over the activities, and will give the students more freedom in the running of the activities.

It is hoped that the committee will give the students more freedom in the running of the activities, and that they will have more choice in the activities which they can take part in. The committee will give them a certain amount of control over the activities, and will give the students more freedom in the running of the activities.

Finally, it is hoped that the committee will give the students more freedom in the running of the activities, and that they will have more choice in the activities which they can take part in. The committee will give them a certain amount of control over the activities, and will give the students more freedom in the running of the activities.
