FRESHMAN LEADERS TO ORGANIZE MEN TO BATTLE SODIES
Success of Field Day Measured
Published Results of Mass Action
GLOVE FIGHT IS POPULAR
Although Team Scores Decide
Winner Much Prestige
Goes to Best Fighters

With the approach of Field Day
regular practices of the athletic teams
lead up to the event. The first
of two classes has come to light as yet.
To keep in mind the spirit
of the occasion, the freshmen were
asked to refrain from jaunts and from
other activities, and to devote all of
their time and energy to the
money-making campaign. The
system of making money is to
submit to theAPH the
amount of money each man
wants to spend on the
football game. Those with the
largest number of points in the track
and field meet will be made students
of Tech in 1929. The list
will be ready on the 15th of October and
will be submitted to Tech.

FRESHMEN TOO LAX IN OBSERVANCE OF RULES

What is the matter with the freshmen? Are they too
drowsy or merely pig-headed? At all events they got wise in
the fact that the freshmen were not permitted to
group up to the Institute Committee
and ask to be excused from the rules.
On the contrary, they were
asked to be in class. Fortunately
the freshmen get along so well
in the school that no points are
lost by the freshmen on the staff.

THE TECHNOLYAN

Combined Musical Clubs Meet Today

Everyone interested in this
activity is urged to try for
membership in a club.

One of the largest musical
activities of the year, the Musical Clubs, will
be held in the Student Union at 5:15 o'clock this afternoon.
There will be a very large attendance.

New A.C. Rectifier Is Announced

By Prof. R. G. Hudson

Device Converts Alternating to Direct Current

Professor Ralph G. Hudson, '27
sparked a small field on his
desk this afternoon and
said, "This is the latest
'phono rectifier and is
an improvement on the
earlier types."

The latest improvement
is to use a copper washer
as a rectifier. This
washer can be inserted
into the copper wire
before the transformer
without disturbing
the transformer. The
rectifier will be used
on the radio and
other electrical devices.

THE TECH AND THE FALL MEETING FRIDAY

NEW STUDENTS TO WITNESS PROGRAM OF VARIED TYPES

Moving Pictures of Institute Life and Recreation

FREE DINNER AT 6:15

Final plans for the All-Technological
smoker to be held in Walker Memori-
al Field House Friday night are
now in their final stages. The
program includes a movie, a
series of songs, a dance, a
series of speeches, and a
series of activities.

INSTITUTE PUTS OUT OFFICIAL BULLETIN

Project Sponsored by Dr. Strout
and Directed by Faculty

An official Bulletin of important
news at Technology as announced
by the various heads of Courses and
the Student Union. The Bulletin will be
printed in THE TECH from now on
in every Monday edition. This
edition was suggested by the
students, who have been
bothered with the lack of
information. The first
edition was printed on
October 1, 1928.

TECHNICIAN MEETS IN BOSTON THIS WEEK

New England Regional Meeting to Discuss Publications

This week is the Boston
Station, Boston, the American Society of
Mechanical Engineers, New England regional
meeting. The meeting will be held on
October 5, 6, 7, and 8, and will consist of a series of
sessions devoted to various subjects of
general interest. There will be
sessions devoted to various subjects of
interest to the mechanical engineers.

POTENTIAL ALUMNI OF TECH

MADE BOSTON DEBUT

Prof. Leo Thoreen, noted
Science professor, will give a recital in
Mechanical Hall, Monday afternoon,
October 7. Prof. Thoreen is the
instructor of the "Power and
Mechanical Music" course, which
meets three times a week. He is
able to produce all the effects
by electricity, and is able to
produce all the sounds
by electricity. His recital will be
devoted to the demonstration of
his latest invention, the "Thoreen's Music Machine." All
of the effects will be produced
by electricity, and the machine will be
operated by the instructor and
students. The recital will be
held in the Mechanical Hall at
2:00 p.m., and will be open to the
public.
