Sympohoe Class Meets to Discuss Field Day Plans

Team Coaches Need More Men To Fill Freshman Need for Sophomores

H. S. FORD, JR., PRESIDES

Chances for a triumph this year in the form of a great victory for all of us rests in the hands of the Sophomore Class. The success or failure of the Sophomore Class will be measured by the number of men who will be able to combine their studies with the demands of a full schedule of athletic activities. The Sophomore Class has been given the task of organizing a successful Sophomore Class. The Sophomore Class is responsible for the success or failure of the Sophomore Class. Speaks on Freshman Rules

Enforcement of the Freshman Rules was the most urgent problem of the meeting. Professor Drisko, of the Mechanical Engineering Department, spoke on the subject of the Freshman Rules. He pointed out that there were certain rules that were not being enforced by the Athletic Department, and that unless these rules were enforced, the Freshman Rules would become meaningless. The Freshman Rules are designed to protect the health and safety of the Freshmen, and unless they are enforced, the Freshmen will be at a disadvantage. Freshmen Voo Doo Comes Out Monday

New Issue Promises to Be Free From Conventional Forms

Crying many new departures, the Freshman Class of the Class of 1929, which meets on Wednesday afternoon, has issued an extra issue of the Freshmen Class. This issue is designed to free the Freshmen Class of 1929 from the usual formality of the Freshmen Class. The Freshmen Class of 1929 has always been noted for its lack of formality, and this issue is designed to continue this tradition.
