DIRECTORY OF STUDENTS

Proofs of the Student List for the 1925-1926 Directory are on display today, Building 14, and in Walker Memorial. Each student is asked to examine his list and report any corrections on the cards provided. Corrections must be reported by October 17.

Huntington Prep School to Open Pre-Tech Course

New Arrangement of Studies to Facilitate Entrance into M. I. T.

The Huntington Prep School for Boys of Toronto, now in its special course for students wishing to enter the Massachusetts Institute of Technology. The last two years of high school are going to be devoted to this special preparation which is going to be inaugurated in October of this year. The inclusion of Mr. C. A. Snedecor in the preparation is made with the advantage of the opportunity of following the curriculum at M. I. T. practically speaking, is being provided at the Prep School by the addition of some special courses. It is planned to give students more opportunity to take advantage of the opportunities in the field of mathematics, physics, and chemistry.

The Lounger

"The Lounger" (Continued from Page 2)

succeed.yervno3Hls

The new arrangement of the "Lounger" will be under the direction of Mr. R. J. M. Stepps, who fills conduct a column of "Literate Life" for the first time. The column is to be devoted to the interests of the students at M. I. T. and the emphasis is to be placed on the students' interests in the various departments of the Institute. The column is to be a continuation of the "Literate Life" column of the "New York Times".

Welcome to College!

You have come here to succeed. Put your best foot forward. Note that college life requires health and strength. Don't let your heels wear your out. Hard heels imparts shocks and jars. But rubber gives and life and helps. Especially the new live rubber in Good-year Wingfoot Heels.

For Joe Goolis, enter once again - The Dean his warn conveys - For Joe'd be an Adams winner On Goodyear Wingfoot Heels.

Tomato Mystery Is Not Yet Let Lurched Up

Directors of the dormitories will have no trouble in remem- bering the "Freshman concert" held last Tuesday night. Some especially the freshmen them- selves, will probably recall that a great many roses and every- thing else was given away. The roses were given away in a box, opened for the benefit of the "Freshman concert". It is not known why it was desirable to have the roses given away, but it is believed that they disappeared the following morning.

The tomato plant in the center of the dining room was destroyed by the theft of the roses. It is not known whether the roses were taken for the purpose of destruction or for the purpose of decoration.

THE TECH
