To the Editor of THE TECH.

Just a word about those Friday evening meetings held under the auspices of the M. I. T. Student Council and the Student Y.M.C.A., etc.

The real point of these meetings is to offer an opportunity of giving the students a chance to discuss these matters and to voice their opinion concerning the conditions and opportunities existing in the electrical engineering and mechanical engineering departments of the electrical engineering department of the university.

We would like to have the opportunity of perhaps bringing our ideas to you at these meetings.

We believe that the students of these departments are not united in their aims and wishes.

Sincerely yours,

H. J. Truax '31,
President of the M. I. T. Student Council.

---

H. S. T. Brown '30,
President of the M. I. T. Student Y.M.C.A.
