Springfield Soccer Team
Defeats the Engineers 5-0

In Hard Fought Contest

Continual practice plus the fact that the Springfield Soccer team was playing on their own field enabled them to win their 5-0 victory over the Engineers last Saturday. Springfield was not given a very good chance at the goal. These chances were taken advantage of by the Engineers, who dominated the game. Hall and Gray were at full back, with Elmer Cooper, and Pokey were at half back. All these men played a good game and drove all of the Springfield rushes forward.

Forward Wall Shifted

Again the forward wall was shifted around and as a result the team behind the passing attack that has been evident in some of the recent games. Jenkinson was about the only man in his old position. Jersey Technology won the toss and started with a fair handicap, but that did not prevent them from driving effectively. Dolman followed with a good start as he had in the previous game, but all of the men played. Springfield's well-organized attack was handled well, and Hall and Gray were at full back, with Elmer Cooper, and Pokey were at half back. All of these men played a good game and drove all of the Springfield rushes forward.

Springfield Scores Late in Period

Springfield was up on the Engineers during most of the first quarter, but late in the period the tide changed and they took up the offensive. Gillespie got five points and was shown to be a good shot. He scored with the second attempt that was taken on the team's 100-yard line. Springfield carried the ball down the field and attempted to score, but Wynn was on the line and prevented a goal in the early stages. Gillette, however, started the offensive with Gillespie and Wynn making the successful shot at the Springfield goal.

Springfield Scores Again

As a result of the above play, Gillespie worked the ball through the Engineer's goal, and Wynn made the successful shot at the Springfield goal.
