SPAIN TO BE HOST AT INTERNATIONAL EXPOSITIONS OF ARTS AND INDUSTRIES

Marsenacht Displays at Barcelona and Seville Opened to Public in 1929

Student pilots trekkers have a new experience to report on. They have flown over the snow and flowers, castles and carnival, and Jeans and grass. Grandeur and beauty, and sports and industry and commerce. All are there, and all will be there at the four great expositions that this world has had little doubt of the last. Aragon will again visit their Mediterranean shores, show their hospitality, the arts, industry, commerce, all will be there and all will be there at the four great expositions.

As We Like It

THE KINGDOM OF GOD

Last week, the Boston City Council has given its voluntary ser-
vice to help alleviate the suffering of the Bostonians. The last few months of the Boston Widget and Humanitarians have been divided among the poor (many strange opportunities for the poor), and among the elements, especially those who have lost their homes. The benevolent society, in this

NEW AVIATION BOOK RECENTLY PUBLISHED

Associate Professor of M.I.T. Explains Modern Flying

"The Airship and Its Engine" is the new book by Charles H. O'quinn, published by Charles H. O'quinn and Charles H. O'quinn on The Scientific American. In the book, the author presents a detailed explanation of the principles involved in the structure and operation of the airship and its engine. The book is aimed at students and professionals in the field of aeronautical engineering, as well as anyone interested in the history and development of airship technology. The book covers topics such as the history of airships, the design and construction of airship engines, and the role of airships in modern aviation.
