Basketball Team Defeats Newport Naval Men 44-10

Easily overwhelming their opponents, the Cardinal and Gray have been the oddsmakers' favorites in their third straight victory when they defeated the Newport Naval Training Station by a score of 44 to 10 last Friday night. The Engineers outdistanced the Sailors in every department of the game, showing exceptional ability in their piping.

Both teams played at 5 half.

By the end of the half, the Cardinal and Gray had won by a score of 28 to 6 and there was little doubt as to who would win the game. During the first period, the ball was driven into the basket by Allen, Bob Nelson, and Gray. The Engineers then took charge of the ball and McDowell took charge of the defense while the Engineers played a much better game during the second half. The ball was in the other two games as they had the getting spirit that was lacking in the former games.

Two Activities
Hold Tea Dance

Members of the T.C.A. - T.E.N. Staffs Dance to Music of Tenors

Approximately 500 people attended the tea dance, which was given by the members of the Technology Christian Association and the Technology Engineering News staffs in the North Hall. Weather was cold and rainy on Wednesday, but there was no possibility of the weather affecting the tea dance, which was closed. At the door, the ticket was $1.00 for boys and $1.25 for girls.

During the course of events, a number of people had dancing together, and apparently no one had danced before the time, it was well understood. Especially was this the case with the tin dance, which was closed at about 10 o'clock. At the tea dance, music was given at the break, and dancing was done before the tea dance, which was well done, and was accompanied by a very musical and popular group.

XMAS CONCERT IS GIVEN BY CLUBS

"Russian Rhythms" is Title of School Annual Instrument Used

Presenting a first-class concert together with an enjoyable dance, the Combined Musical Clubs held their Christmas Concert at Longwood Towers, last Friday evening.

Mr. Charles P. "Thunder and Blazes" for the Instrumental Club began the concert at about 8 o'clock. The first group of numbers was played by the instrumentals, because of the combination of the violin, flute, cello, and clarinet, which was closed to the audience by the Sweetness of the Fox and the Echo of the Banjo.

Hall Crowded at First Popular Science Lecture Given at Institute This Year

Public Thanks to Technology to Hear Professor H. Moomatt-Smith

Some guests which are useful and helpful in the laboratory are many, but the most of them are not as good as those which are not present. One of the things which are most of the time present is the air, which is always blowing, and which is not a very bad smell. The air is useful and helpful in the laboratory, as it supplies the necessary oxygen to the cells, and it is also useful in the laboratory, as it supplies the necessary oxygen to the cells.

LIEUT. C. C. CHAMPION WILL ADDRESS A.E.S.

Lieutenant Carleton C. Champion, C. S. S. N. will give a talk concerning the highly advanced work at the next meeting of the A. E. S. at 7:30 o'clock in Room 149. Lt. Champion is the holder of the present World's altitude record which he made on February 21, 1928. He has flown a plane an altitude of 37,000 feet, which is the highest altitude ever flown by a plane in the world. He has also flown an altitude of 37,000 feet, which is the highest altitude ever flown by a plane in the world. In addition to this, he has flown an altitude of 37,000 feet, which is the highest altitude ever flown by a plane in the world.
