Mr. John Goss, Baritone, to Aid in Presenting Program of Folks Songs

FOURTH RECITAL OF YEAR

Mr. Arthur Whiting, one of the foremost modern interpreters of Augustine, Seventeenth Century, will present the following selections:

In his program tomorrow, Mr. Whiting will present the following selections:

I Care Not for the Ladies

Mr. Whiting has been invited to present his program at the Institute in the past few years.

Whiting will present the following selections:

Through the cooperation of the Corporation of the Institute, Mr. Whiting has been invited to present his program tomorrow. Mr. Whiting will present the following selections:

Rings will be due on Tuesday. The rings must be submitted by the evening of the last sitting of the quarter in order to receive them by the end of the quarter.

Next week copies of the schedule will be sent to every student in the Institute, together with an application card. By a recent vote of the Faculty, the customary system of giving these examinations at the end of the term has been varied so as to extend the period over the entire remaining Saturdays in the semester. Students who do not return application cards.

REVIEW

The Press Gang

Next week copies of the schedule will be sent to every student in the Institute, together with an application card. By a recent vote of the Faculty, the customary system of giving these examinations at the end of the term has been varied so as to extend the period over the entire remaining Saturdays in the semester. Students who do not return application cards.

INVESTIGATION

From a historical point of view, the Institute is now in possession of its first complete set of reports on the situation at the next meeting of the governing body of the Board of Overseers.

This Committee was sanctioned by the Board: "What considerable episodes in Victorian thought do you associate with Newman?"

After the customary first few minutes had elapsed, the students were all deep in thought as they pondered over the question. Do you mean that we refer to a particular individual or a particular event in history?

Wesleyan Winner

In Glee Contest

Technology College Places Fourth—Middlebury Second and Williams Third

Competing with Glee Clubs from ten of the fourteen engineering colleges, the Technology College placed fourth overall in the recent glee contest held last Friday evening at Symphony Hall.

In the contest, Wesleyan, with Middlesex second, and Williams third, presented a program far more varied than the Wesleyan program. A system of points was used in scoring the programs.

A system of points was used in scoring the programs:

Condition Examination Schedule

Repeating Saturday, March 23, and continuing every Saturday until May 18, these examinations will be offered each five weeks.

By a recent vote of the Faculty, the customary system of giving these examinations at the end of the term has been varied so as to extend the period over the entire remaining Saturdays in the semester. Students who do not return application cards.

PAYMENTS ON SENIOR RINGS DUE TOMORROW

Delivery May Be Expected Before April First

Final payments of money for Senior rings will be due on April 13. The Senior Ring Committee will mail a desk in the Main Lobby lobby and will continue the usual practice of mailing rings to students who sign up there will be two payments of money due. Those who sign up there will be given rings on the application card and return it to the Records Office, Room 3-416, by March 23.

While these concerts are specially for members of the Faculty, the members of the Faculty are invited to attend.

MARCH TECHNOLOGY REVIEW ON STANDS

Prof. Wiener Discusses Murder in Alumni Publication

"Artificial Cold," the Calendar Simulation, and "The Car," are some of the features of the March Technology Review, which went on sale a few days ago.

The article on "Artificial Cold," describes some new methods of refrigeration and their applications. The article on Calendar Simulation tells something of the history of our present calendar, how it has been made. This article also gives a description of the proposed thirty-month calendar, with each month consisting of twenty-eight days, thus giving the reader a chance to study the latest astronomical theory, "the Bishop's Blue Moon." The article on "The Car," is an account of the work on "Motor and Motivation."
