M. I. T. QUINTET ENDS SEASON IN GAME WITH TUFTS

Freshmen Will Also Meet Tufts Yearlings in Hangar Gym Tonight

LAST GAME FOR SENIORS

Allen and Brockett Return After Year of Success in Basketball

In the last game of the season Cardinal and Gray will meet the Tufts five in the Hangar Gym tonight. With the Varsity playing in their final game of the year, the importance of the game to the New Hampshire Wildcats was stressed by the Engineers as they are ready for the Tufts game. It is expected that the Engineers will fight their hardest to come through with a victory, for they will be leaving the home floor.

Tufts Has Strong Team

Tufts cleared up its program last week a little better than New Hampshire, and as the Midway boys have had a fairly successful season they are going to be out for the Engineers. As the two teams are both first-rate basketball teams, the contest will be a very well-matched game.

As a result of the New Hampshire defeat, the Engineers probably start tonight's contest very cautiously. The Tufts boys were Engineers when they were enrolling, and as a result they will be able to play against the entire contest. The game was also marked by a large number of friends and there is not likely to be a repetition of that type of basketball in the Hangar Gym tonight.

Allen and Brockett Play Last Game in Home Gym

Allen and Captain Bernard Brockett both played their final game in the Hangar Gym tonight. Both of these boys have played the mainstay of the Engineers' basketball team.

The mid-season was attended by the mainstay of the Engineers, and the outcome of the game will be decided by the mainstay.

The mainstay of the Engineers, and the outcome of the game will be decided by the mainstay.

Coach Y. Allen and Bernard Brockett played their final game tonight in the Hangar Gym. Both of these boys have played the mainstay of the Engineers' basketball team. The mid-season was attended by the mainstay of the Engineers, and the outcome of the game will be decided by the mainstay.

NEW ENGLAND LEAGUE

SOCCER TEAM JOINS NEW ENGLAND LEAGUE

Invitation to Enter is Accepted by the Advisory Council

Technological's varsity soccer team will be a member of the New England Intercollegiate Soccer League next year. The invitation to enter was extended at last night when the Advisory Council on athletics accepted the invitation presented to the Institute team to join the league. At the time of the meeting the team's game schedule was decided and it was decided that the team would play three games against Harvard, Cornell, and Princeton.

Formation of the New England group is complete and the team will meet the next year or two and will be com-

If you have the number of students and members of the Fac-

ity of both of the men who had been invited by the Council gave permission to the soccer team to enter the New England group.

The league will consist of three teams, each team having a set of games scheduled to be played against each other.

The first game of the season was played by the Holliston team. It was a very close game, and the Holliston team was at a disadvantage. The game was played by the Holliston team. It was a very close game, and the Holliston team was at a disadvantage. The game was played.
