NOTICES AND ANNOUNCEMENTS

THE TECH

Monday, March 25, 1929

The Tech would disappear from the face of the earth if any hook or crook were used to try to get it. The Tech is a creation of the student body, an expression of student ideals, the product of student effort, and the result of student sacrifice. It is the voice of the university, and its survival is necessary for the continuation of the university spirit. It is the duty of every student to support the Tech, by subscribing to it, by reading it, and by contributing to its success. The Tech is not a business enterprise, but a part of the university life, and its success depends on the support of the students.

STUDY PROBLEMS IN APPLIED CHEMISTRY

Investigate Basic Principles of Petroleum Rectification

Notes on Rectification

It has happened again. Yesterday afternoon the sun went down and a new moon appeared in the sky. The students were pleased, for they had been looking forward to this event. But the exhibition room was not as empty as expected. There were a few students who had not seen the moon before, and they were amazed by its beauty. The moon is a beautiful sight, and it is always worth the effort to go out and enjoy it. The students were happy, and the exhibition room was filled with light and joy.

Bar at Carnival to Be Run by the Tech

(Derived from Page 11)

The arrangement is that all bar orders will be taken by the students. This will eliminate the possibility of change-making on the part of the organization running the bar, and will make it easier for the students to get their drinks. The bar will be run by a committee of five students, and will be located in the basement of the New University Building.

Undergraduate

Senior Endowment

Information on the Senior Endowment plan can be secured in Rooms 221 at any time.

Lacrosse CANDIDATES

Sticks will be distributed to candidates in the Hanger Gym today at 1:00. The Oam and Senior are to be present.

Camp Technology is Topic at Meeting

A meeting of all men who are going to attend the Camp Technology this summer will take place in Room 301 of the New University Building, at 3:00 P.M. today. All students are urged to attend.

The Tech would disappear from the face of the earth if any hook or crook were used to try to get it. The Tech is a creation of the student body, an expression of student ideals, the product of student effort, and the result of student sacrifice. It is the voice of the university, and its survival is necessary for the continuation of the university spirit. It is the duty of every student to support the Tech, by subscribing to it, by reading it, and by contributing to its success. The Tech is not a business enterprise, but a part of the university life, and its success depends on the support of the students.
