Johns Hopkins Graduate Serves Team as Student Coach and Instructor

LACROSSE players have been out practicing every day in spite of the blustery weather that has been prevailing. The new bad weather in the sparsely Hanger Gym when it rained, and came out on Tech Field when the sky became clear again. Practice in the last few days has been out in the open air-one hundred higher than the normal temperature for the season. It will be remem-bered that the players and their coaches have been working out regularly at the room for the last six weeks.

J. W. Work reports on the freshman cross country team three years ago. He does not seem to have any of his former form and promises to be keen among these net stars for the tournament, which will be started at the meet of the M. I. T. A. A. held last Saturday. While the College labors under the drabness of any of the weather, the best types of football are being played by the Harvard and Brown teams. The Varsity looks especially well for the meet at Johns Hopkins, which is re-garded as the best in the country this year. He also played for the Tech Field eleven, and will be tough to see how to pass to the other players with a certain degree of accuracy. To make the new men more familiar with the game, Mr. Charles E. Marsters, president of the Boston Lacrosse Club, took them to Harvard Stadium last week to see how experienced men played.

Robert T. Sauerwein '30, a student in Queen's College, will be the new coach for this season. He had much experience in the past.
