LADDER PLAY WILL START FOR TENNIS CANDIDATES TODAY

Freshmen Spoken to by Manager Wight and Capt. Cleary at M. S. Deits

CAPT. CLEYER STARTS PLAY

Ladder play is in the tennis tournament, the first matches for the varsity have already been played. Each match is played and the participants in attendance enter their names at the tennis desk. All men who expect to enter the tournament shall make arrangements with Capt. Cleary or the manager. The matches will continue throughout the next few weeks. A ladder will be posted in the first match for the varsity. The ladder play will also include any men playing who are not enrolled in the tourney.

Freshman Up To Complete

Capt. Cleary spoke to the freshmen about being members of the varsity. He told them to keep in mind that the time for them to make their marks in terms of tennis is now. He mentioned the possibility that if they perform well they may be able to jump into the varsity ranks.

SCABBARD AND BLADE ELECTS NEW MEMBERS

Ten Men Initiated Into National Military Fraternity

At a dinner held in the Hotel Kenwight Saturday evening, ten freshmen, known as the Milton Institute of Technology, were initiated into Scabbard and Blade.

CONCERT AT MILTON

The freshmen, a first hand picture of the various electrical courses, were entertained with a Quartette and a group of three xylophone soles by Gardner Harvey. The concert will be repeated on the first Wednesday in May, if the Institute of Technology, is in attendance.

FRESHMAN FUNCTION

PROVES SUCCESSFUL

Star of "Luckee Girl" Presented as Guest of Honor

With six alums from Leo Stettman's class present, a formal dinner in honor of the freshmen was held at the Milton Institute of Technology last Friday night. The chair was filled by President Samuel W. Stratton, the toastmaster was Chairman Robert R. Henderson, and the entire assembly joined in the projects of the evening.

The best means of transportation for Heads for the first time, a railroad system was discussed, and the idea of running trolley cars from Milton Institute of Technology to Cambridge was suggested.

CORPORATION XV TO VISIT EDISON PLANT

Corporation XV has completed a building project for the Milton Institute of Technology. The building is named the "Luckee Girl" and was introduced to the campus by Paul who introduced her as the architect of the new structure.

The "Luckee Girl" was a distinctive light bulb that was designed by Paul. The bulb was designed with artistic merit and included several innovations. It was shaped like a star and featured a unique design that attracted attention.

The building was completed just before the first floor of the Milton Institute of Technology was dedicated. The building was dedicated with a formal ceremony that included speeches and a tour of the building by students and faculty.

The building was designed to house the electrical engineering courses at Milton Institute of Technology. It featured state-of-the-art facilities and included classrooms, laboratories, and a central electrical engineering laboratory.

The building was completed with the support of a large number of donors, including corporation members, alumni, and friends of the Milton Institute of Technology.

The "Luckee Girl" building was a significant milestone in the development of the Milton Institute of Technology and was celebrated as a symbol of the institution's commitment to excellence in education and research.
