Pipe Convert Ends Agonizing Tobacco Hunt

New York, N. Y.

V. Crenshaw

I started smoking on occasion, but after meeting a young lady for whom I had a fancy, I was compelled to purchase cigarettes. There were many different kinds of tobacco on the market, but I finally decided on a brand of cigarettes that was advertised as being the best for smoking. However, I was not satisfied with the taste of the cigarettes, and I decided to stop smoking altogether.

Mr. Olken was merely the spokesman at that meeting in Huntington. The chairman, quite sober, proceeded to the matter of elections. However, after a few minutes of silence, the chairman suggested that the meeting close without taking any action.

LIMELIGHT ISSUE OF VOO DOO OUT TODAY

(Continued from Page 2)

had features of the issue. Can't a student monthly get along without the "LIMELIGHT"? How about calling in a parental puff? The reply would like to be seen.

"Paul Revere Broadcasting with One Flip" is one of the best jokes in the issue and sympathy is hereby extended to anyone who doesn't understand it. All through the issue are subtle jokes that are excellent. It can be hoped that Missoulian doesn't see the future of his chortles or the possible outcome of some of the reflections on the society. A joke about Club Life at Technology, while not an original idea, is well executed. "Little Backpack with Sublime Technology Puns" Forbes makes a laugh, but for the benefit of the people of the Rivertown it would have been much better if Harford B. Liddell's comment had read: "Every Technology student should stuff a LITTLE love line with his daily work."

NOTICE

All who have colored special place for the "LIMELIGHT"! Doinker may get them now at the offices in Wall.
