GETTING INTO SOMETHTHING

WHEREVER his interest may lie, the important thing for any man is to get into something and to concentrate on some activity. Whether he enjoy dramatics, or prefers the publications of the news writer or the activities of a sportsman, the sooner he allies himself with some organization, the sooner will he feel that he is in the sphere of the world, a "Tech man\

This was the theme at the recent freshman camp. Dr. Strat-
son, Acting Dean Lobdell, Busrar Ford, and Professors Proscott,
and Legg, all emphasized the point that the men at Technol-
ogy, and the women too, take a personal interest in their work. They speak from an abundance of experience.

Elsewhere in this issue of THE TECH will be found short
descriptions of the work of the many extracurricular activities le-
known thousands of men at Technology, and have taken a per-
sonal interest wherein he is going to concentrate. He will regret it
soon.

The musical clubs figure largely in this issue of THE TECH. Two of the biggest social and musical entertainments of the year are given in this department. The Christmas Concert was nearly held in its full perfection, but the coming of the next school term necessitated the suspension of the same. The second event concerns with musical organi-
ization. This is the Combined Musical Clubs, which is bound to have a future of great promise. In addition, each year there is a "Tech Show," which is the most popular of all the events at which are given at Tech. The musical clubs are the counterpart of the "Tech Show."

The Combined Musical Clubs offer the students the opportunity of putting into actual practice the theories of which they have been taught in their music courses. The Combined Musical Clubs is bound to have a future of great promise. In addition, each year there is a "Tech Show," which is the most popular of all the events at which are given at Tech. The musical clubs are the counterpart of the "Tech Show."

TECH SHOW

This year Tech Show will have several beautiful girls, an excellent cast, and the most accomplished orchestra in the history of the company, under the management of the very best men.
