NOTICES - ANNOUNCEMENTS

OF GENERAL INTEREST

Hydraulic Turbines

Dr. W. D. Thomas

Dr. W. D. Thomas, Professor of Hydraulics, Water Power Machinery and Water Power Plants, and Director of the Hydraulic Laboratory at the Technische Hochschule in Berlin, will present a series of four lectures on the design, construction and working of hydraulic turbines. These lectures are sponsored by the Mechanical Engineering Department and were arranged under the auspices of the hydraulic and mechanical design of Kaplan turbines. The lectures will be given on Tuesdays at 7:30 in the form of slides and moving pictures.

FRESHMAN CAMP PHOTOGRAPHS

Any student who desires copies of the photographs taken at the freshman camp last weekend may obtain them by ordering through the M.I.T. Photographic Service. Prints and further information are posted in the Institute Hallway, Second Floor, excepting 4, outside of the Bursar's office.

FRESHMAN CAMP NOTICE

These men who took pictures at the freshmen camp are requested to bring any photographs that they obtained to the TECH Information Office this week. All pictures will be returned by Tuesday morning.

NOTICES--

INSTITUTE COMMITTEE

The first meeting of the Institute Committee will be held at 2 o'clock in Walker Memorial on Thursday, Tuesday afternoon at 5 o'clock in Walker Memorial.

FRESHMAN MILITARY SCIENCE

The first class in freshmen B.T.C., M.C. 11, will be held at 6 o'clock today in Room 309.

TECHNIQUE

In the school annual, and in the activity bulletins of M. I. T., the use which is made of Technique in the library of the school records everything connected with the Technique. Technique has used for many years a chart for the recording of the activities of the students. The chart is figured in a number of features, although the time between the different departments is very loosely drawn so that a man may work in any department. In fact the man who has experience in many departments has more chances to get a job.

The positions department has charge of the student, publicity, advertising, and circulation. The man who is successful in this department will be in line for all active jobs in the student and junior societies. The junior societies are usually in the office system and management, and in this connection there are also many excellent acquaintances which can be made. The junior societies are also very prominent in the activities of the students, in which the creative work on the campus is done. Not all the information is given in the student activities bulletins, but is available to anyone who is willing to look them up.

ALMAC CARDS

BEAUTIFUL ALMAC CARDS

MAKE SELLING A PLEASURE

For those who have not been introduced to the black cat of Technique, you are the ideal publicist. The Institute is always looking for men to round up the good card buyers of the Institute. Anyone who has excellent ideas for cards will be counted as a vital member of the Institute.

Old Gold tobaccos are naturally good

...they do not require "artificial treatment"

When meat or fish or fowl has to be made good by artificial flavoring or sauces, let your stoma-

cach beware! Beware, also, of tobaccos that

do not require such treatment.

Old Gold tobaccos are naturally good; made

by Nature herself.

Better Tobacoo make them smoother and better... with "not a cough in a carload"

By your favor, Old Gold—PAUL WHITMAN ISSUE. Paul Whitman, with his complete orchestra, every Tuesday 9 to 11 P.M. Eastern Standard Time.
