Cruisers Open Freshman Cross Country Season

Many Men With Previous School Experience Reported

With the start of the cross country season but two weeks away, the freshman cross country team is rounding into good shape. The team has not yet been definitely picked and will not be over next week. This is being done to give those who have had experience a chance to compete for the positions. These novice men, however, will also receive an intensive training as there will be no easy pickings in the first meet with Holy Cross. At this time the runners are already in peak condition and are working hard to maintain that condition, according to Captain Milton H. Rich. Rich has taken the job this year as captain of the team, and has shown that he can carry this responsibility.

O’Brien Derides Political System

Civil Engineers Convened at
The Scientific Estimate of Presidents

"Of all the positions acquired by me during my public life, the greatest of them was that of Secretary of War," President Woodrow Wilson said in an address at the American Academy of Arts and Sciences last week. President Wilson spoke of the advantages of cutting the list of officials and the importance of the work of the United States government. He pointed out that the country has learned about Technology. As the President continued, he described the steps that he has taken to improve the work of the government.
