The school man's pen

As remarkable, with reliable positive vacuum control, gives the Chilton positive ink as the ordinary pen. A clever filling device, with eleven distinct processes before we're done. Tobacco's at its best...in a pipe.

MENT'S preference for a man's pipe—mildly to plenty. But do you know why? Right, pipe tobacco's different— for instance, Edgeworth. Second, tobacco smokes as it should in a pipe. And third, these men get more satisfaction—greater yield of the good old musty flavor, nothing fullness of rich smoke. Tobacco's at its best in a pipe. It gets a chance to be itself there—no chance to become nibble, to ex- hale smoke as well as it should. In the Chilton leaves get the chance, otherwise, it will keep all the good things about tobacco. Chilton leaves, choice blend, motley mixture of orange and con- ding, Edgeworth comes through intense distinct process before we're willing to pass it on to you. If you've been missing all this, that's your fault—for we're willing to send you a pipe. Remember, Edgeworth. See the coupon? Fill it out and send it in, you'll bring you a real little glad-to-see you, the pipe of good old Edgeworth. Edgeworth is a wonderful kind of good tobacco, people seem to like it. We're going to make it for you. Send in the coupon.

BIG VOLUME

Does your fountain pen run dry at critical times? Here's one that holds twice as much ink as the ordinary pen. A clever filling device, with positive vacuum control, gives the sack giant capacity. And the Chilton pen is quite as remarkable, with reliable propel-repel-expel features. Twins! Both built like fine watches, and fully guaranteed. At better dealers everywhere.
