Fifty Miles

Cambridge, Mass., Wednesday, October 30, 1929

Cambridge, Massachusetts. There were 1,300 people here today for the opening of the Tech Show, the first of the three shows which are to be held at the University this fall. The Tech Show is an annual event and is one of the most popular of all the University's activities. It is a great social gathering and a fine opportunity for students to meet and mingle.

The Tech Show is held in the Memorial Hall of the University and is an all-day event. There are many different attractions at the Tech Show, including a variety of exhibits, games, and entertainment. The exhibits are set up by students from various departments and cover a wide range of topics. The games are designed to be fun and educational, and the entertainment includes live music and dance performances.

The Tech Show is a great opportunity for students to showcase their talents and abilities. Many students use the Tech Show as a way to gain experience in the world of business and to network with potential employers. The Tech Show is also a great way for students to learn about the different fields of study that are offered at the University.

Overall, the Tech Show is a wonderful event that brings together students from all over the University. It is a great way to get involved in the University community and to have a good time. We hope to see you at the Tech Show tomorrow and throughout the rest of the week.
