BASKETBALL SEASON STARTS DECEMBER 7 Freshmen Are Asked to Attend Rally This Afternoon
(Continued from page 1)

As was mentioned earlier, the season was opened in December of the last year with a dual exhibition team and a full dual season this year will be attempted.

In this connection, the annual Palmer-Northwestern game is to be held November 20th at 7:30 in the Colonnade gymnasium. Both teams are composed of upper class boys and are expected to give a high quality of athletic entertainment.

The Freshmen game should be attended by all of the Freshmen class and their friends.

POLO CLUB MEETING SET FOR TOMORROW

Prospects for the Team to be Subject of Discussion

All interested in polo and riding are invited to attend the first meeting of the M. I. T. Polo Club to be held this afternoon in Room 11, Buildings.

The prospects of the polo team for 1929-30 will be discussed at this meeting.

The Technology team had a successful season last year in its effort to draw students enrolled in sociology, physics, and members of the junior class.

A game of tag was one important part of the early season (football) practice at Tech. A graduate of the Massachusetts Institute of Technology, associate coach of the University's football team, stated that in this way each player was given a chance to display his talent and to learn what it means to play football.

In connection with the present season the authors hope to present an article on the history of the game and the development of the modern rules.

We service cars for No-Vap, Prestone and Alcohol.
