CHINESE CORK TOURNAMENT
The final round of the Chinese Cork tournament will be played Friday, December 14, at 7:30 p.m. in the A. C. T. Room.

BOYS' WORK
The following students have been chosen to accompany the team or management to that day's game:

Blades and Splashes

Even though it is the slack time of the year for rowing at Technology, the varsity crew between 15 and 40 men report daily for practice, according to the report of the crew from the 1929-30 crew are out prac- ticing daily. They are Captains Howard Bennett, Ott, Evans and Harry Myres, and the varsity crew at Penngrove last June.

The Jay-Vee and freshmen crews of last year are furnishing a large part of the candidates for berths on the Varsity crew this fall. Captains Evans and Cline, Cook, Hall, Birdsell, Binnor and Laban are among those from these crews that are hoping for slots in the Varsity shell in the spring. 

The number of men shuffling up for practice is a good sign, in the interest of rowing at Technology. This is the slack time of the year and in January (the number of men reporting should be increased by approximately fifty per cent).

The Varsity crew has not been working on a schedule under the coaches to far this year but a small group under the tutelage of Captains Ott, Myres, have been preparing for Tech Show. 

All the shells at the boat house are being put into shape by Captain Manley, during the fall and in the season and will be in the water in good shape again for spring training. 

The shells that were purchased from Ox- ford last June will be in the water before the season starts. 

The 150 pound crews have not been working on a schedule under the coaches, but a small crew that has been practicing in this group.

Among the improvements that are being looked for this year is the reshuffling of the freshmen crew that has been in the past. 

The Varsity crew is being emphasized by the coaches at this time of the year while the junior and freshmen crews are on the machine. 

The 1929-30 crew is the strongest crew in the history of the varsity and the coaches are confident that they can come out with a team that will be all but unbeatable.

HOUSE DESIGN SHOWN IN ROGERS EXHIBIT

As exhibits of small houses that were built in the dormitory recently by the House Beautiful Mar- chant, is being held in the Men's Dormitory until December 14 and all Technology students are invited to attend and inspect the exhibits. 

According to a District specialist the average college freshman in 12 years will have more than the average credit on his resume.

BASKETBALL SEASON TO OPEN TOMORROW
Team will Meet New Bedford In First Game Of Year

(Continued from Page 1)

Basketball season begins Saturday night (Continued from Page 1) with the ability of the famous team representa- tives to come from the north. The game is the third game in as many nights, the Hammers' game should be at least one for the Engineers. The first real competition will come from the 29th of December at Tech's Gym. Although little is known of the five from Providence, they are becoming real stars.

Demonstration Game
Thursday evening, December 11th, there will be a demonstration game to be played in the Tech's Gym. Admission will be free, and all tickets sold and students interested in learning the technicalities of the game are invited. All instructions of the rules will be explained by the coaches. 

The season of the team to play is to be announced later.

The team from Yale State College, New Haven, will play Tech in their first game of the season at Tech's Gym tonight. The Yale State team is fast and strong and will give Tech a good game. 

The student court at Ohio State University, who have been working on their first season of theHive, will finish off Tech's Home Opener as a development of suspension from the univer- sity.

What Will 1930
Mean for You?
If color is histoious, will it mean the beginning of a new entrepreneur- ship period—the trial and error method—which possibly will never lead to success.

If you spent a year in prep- aration for business—followed by a failure in that field, can you honestly expect to be able to support yourself?

Train for Leadership
To meet the demand for executive leadership, a new association for a suc- cessful business career is the one that would be taught the fundamentals of business and shown how to apply them effectively to actual business.

Send for Booklet!
Every college man who is ambitious to succeed in business should read our booklet, "Training for Business Leadership." It explains in detail the subjects studied, the unique features of our course and how leader- ship in a business career is achieved. An booklet distributed during the Christmas Holidays.
