DEDICATION

FEELING that Technology graduates too soon grow away from the school's atmosphere, the Alumni and The TECH present here with its "Alumni Issue". It is dedicated to the students of every year, and to the alumni of yesterday. Your contributions to the engineering world are given publicly and proudly in this issue. The same respect and consideration of your activities is accorded to you as you are of ours.

Both sides have attempted to give a synopsis of important events of the last two years, and to present some ideas of the future. Although the names of the students may not be familiar, we feel sure that you will read these accounts with interest.

Within the walls of Tech, the experiences will recall similar happenings "during the old administration".

The whole of the alumni association strive to keep our dear alma mater moving forward.

We are convinced that our Alma Mater is always right.

The TECH presents herewith its "Alumni Issue". It is dedicated to the alumni of yesterday. No doubt our experiences will recall similar happenings "during the old administration".

For those who like to speculate remotely, with Maurice Chevalier and in the foreground, "The Love Parade", now playing at the Tech Theatre, the reviews for this venue's French musical comedy want to be enthusiastic. With the opening of February, the era of the "love parade" is heralded. Something new in the public mind is shown in the French musicals.

The Frenchman, a pure Frenchman, is a target for the American public, as they seek to find a more direct expression of all the men's interests. The musical comedies are among the most important musical comedies of the year. They are favored with being direct from the stage.

This is the first selection of the new opportunities of the star have been starred on two continents, and although there is a touch of the unattainable in the handling of the story, it cannot be denied that the musical is a very good one. It is not to be missed.
