Later in the fall of 1928 Hoover moved into the country in preparation for the presidential campaign and personally the entire student body greeted their fellow engineer as he passed down the main avenue. The freshmen had not been able to speak so they were gathered in the front of the building and gav

Tuition Raised

Due to the cost of $850 per student it is necessary to raise the tuition to $500 due to the expenditure of $850 per student. The tuition was $500 and was increased to this point in 1928. The issues per student are still constant, but the increase in exchequer has doubled the per capita endowment which offers some protection for the student body.
