

ENGINEERS DEFEAT NEWPORT NAVAL 56-40

COACH STEWART PICKS POSITIONS ON HOCKEY TEAM

Hazeltine, Peterson, Ford, Urbanoski, Hall, Coleman Or Whiston

PRIMED FOR HARVARD

Squad Will Scrimmage Boston Hockey Club Early In The Week

Coach Stewart has rounded his hockey team so that they will be in fine shape for their battle with Harvard this Thursday night. Starting their season against such teams as Harvard and Princeton the hockey squad should early get that experience that they need so badly so that they may hit their stride early in the season. The Harvard game will be played at the Boston Garden on account of the superior ice and larger seating capacity than the Arena. The Princeton game is to be played Saturday night at Princeton.

Three Veterans on Team
Technology's lineup is virtually the same as has been scrimmaging together for the past two weeks. With only three veterans back, around which to mould his squad, Coach Stewart has had to take last year's substitutes and freshmen players and put them through the mill to be ready for this season.

The defense line should prove a great worry to any rival men who feel inclined to score. Captain Ben Hazeltine is the veteran defense man who performed so well last year. He holds down the left defense position. Incidentally Captain Hazeltine scored Technology's lone score against Harvard last year when the M. I. T. team came out with the short end of an S-1 count. The other Engineer who has been holding down the right defense position is Peterson. The present line combination should click into scoring combinations Thursday night. Pen Hall will be at center ice with Horace Ford at left wing and Hors Obanoski at right wing.

Goalie Position Undecided
Goalie has been one of the hardest positions to fill on account of the irreparable loss of Phil Riley, that spectacular goal tender who saved so many points in the form of blocked opponents' goals last year. There has been quite a hot fight down on the ice as to who should have this position. As a consequence Coach Stewart will probably play both of the leading contenders for that position.

ARCHITECT'S DANCE PLANS ARE CHANGED

Change of plans for the decorations of their dance on next Friday has been announced by The Architectural Society. Instead of being Egyptians for the evening dancers are to be clowns and freak men. The exhibition room will be planned to look just as if the circus were in town, with sideshow posters, animals and everything, all under a big tent.

Clarence H. Williams '32 is in charge of the arrangements, and he said that the tickets will be on sale today or tomorrow and can be obtained from any member or officer of the Architectural Society, at the price of one dollar.

LITERARY EDITOR IS CHOSEN BY VOO DOO

Eric Sparre '33 was elected Literary Editor of Voo Doo at the board's regular meeting last week. The election came as a result of a competition held for the position which has been vacant this year. At the same meeting it was decided not to elect anyone to fill the vacancy caused by the resignation of Otis A. Sibley '31 as Managing Editor. The duties of managing editor will be carried out by the other board members until the election of the new board early next week.

Crowd of Five Hundred Sees Cagers Win Opening Game of Season With Little Difficulty

Maurice Colbourne Will Make Address On Bernard Shaw

Is a Personal Friend of Shaw — "The Real Bernard Shaw" His Latest Book

"Bernard Shaw as a Personality" will be the subject of an address given by Mr. Maurice Colbourne a personal friend of Shaw on Wednesday, December 10, at 1 o'clock in Room 2-190. All are invited to attend the lecture which is in advance of the Theatre Guild season during which Shaw's play, "The Apple Cart," will be presented.

Mr. Colbourne is an Englishman, and has come to America this season especially to lecture for the Theatre Guild. He himself is an author and is well known on both sides of the Atlantic as an actor in the plays of Shakespeare and Bernard Shaw. He has had varied experience as a director, producer, soldier and economist. "The Real Bernard Shaw" is the title of his latest book, and Shaw himself assisted in preparing this book by correcting the proofs. Mr. Colbourne is an honors graduate of Oxford and has had among his acquaintances the late Thomas Hardy and Ellen Terry and is a friend of the British Poet Laureate, John Masefield.

TECHNIQUE SIGNUPS FOR SENIORS BEGIN

Deposit of One Dollar Asked; Balance Due in March

The fall campaign for sign-ups for Technique began this week, and will continue through next week, according to an announcement from the Technique circulation department. All Seniors living in fraternities and in the dormitories will be visited by representatives of the Year book sometime during this week or next for the purpose of signing the subscriptions.

Deposit of \$1 is required, the rest to be paid during the redemption campaign next March, although any Senior wishing may pay in full now. The special price of \$4.00 will hold only until the general campaign some time in February and after that time the book will cost \$5.00.

All those wishing to have their name stamped on the cover in gold may have this done on an extra charge of fifty cents. The books themselves will be delivered late in April or early May as has been done in previous years.

Junior Has Slide Rule Used On Panama Canal

The cylindrical slide rule which was used for all the important calculations during the construction of the Panama Canal is now in the possession of a Technology student, Henry A. Golmark, chief civilian engineer who worked together with the chief Army engineer, General Goethals, on the construction of the canal, presented his slide rule, upon which he made all calculations, to Frank H. Spier as a gift.

The rule is a Thatcher Cylindrical Slide Rule capable of six places and is estimated to be equivalent to a straight slide rule 64 feet long. It is about eighteen inches long and four inches in diameter and operates on the principle of the helix. It is in a fine state of preservation and aside from its historical value furnishes Mr. Spier a fine instrument for solving his mathematical difficulties.

SCORE AT END OF FIRST HALF 31 TO 3; HARRISON STAR

Sietz, Newport Naval, Scores 17 Points Against Subs In Last Half

DANCE FOLLOWS GAME

Before a crowd of close to 500 fans, which packed the stands to capacity, the Technology basketball five distinguished themselves in an estimable fashion Saturday night in the Hangar Gym, taking the Newport Naval Academy to the tune of 56-40.

However, the score does not show how decisively they defeated the Newport five, as the second team played most of the second half for the Engineers. With the first squad playing in the opening half they piled up the lead of 31-8, and it was 42-18 when the substitutions were started in the second period. The high point man was not an Engineer nevertheless, but was Sietz, right forward of the Newport team. The team showed the same characteristic of last year's successful team, the five men starting the game, namely, Motter, Harrison, Johnson, Dickinson and Sysko, all scoring almost equal numbers of points, showing how well the team worked together.

Newport Gets Jump

Newport opened the game fast by getting the jump and passing the ball around cleverly, trying to work through the Beaver defense. After two unsuccessful tries at the basket Newport lost the ball to M. I. T., who broke loose for the opening two points.

No field goals were made for a few minutes then, both fives scored twice

Phosphorus Airs His Own Opinion In Girls Number

Wednesday Issue of Voo Doo Has New Arrangement Of Features

Girls beware! Phosphorus will reveal all of your secrets in the "Girls Number" which will appear on the stands Wednesday. In this issue Voo Doo makes an honest attempt to disclose many of the pet idiosyncrasies and unfathomable actions of many members of the fair sex. It is hoped that the well known Cat will find many hearty sympathizers for the sad stand which he is forced to take (held by a leash in the hands of a young lady).

This next number of Voo Doo will make an entirely different appearance from that to which its public is accustomed. A new order of columns has been developed by which the potent humor and subtle drawings are arranged in broken order throughout the pages rather than the usual straight columns which has been the practice in the past.

Coop Not Spared

It was discovered long ago that no one is safe from the fiery darts that Phosphorus is prone to cast. This time the Coop will be the unwilling target of all the laughs which shortly will be directed towards it. Nor is the Editor of THE TECH safe from the insinuations of that witty little animal.

Phosphorus has well nigh outdone himself with a great superfluity of jokes which are well above the aver-

M. I. T. Boat Club To Initiate Eight Men At Banquet

Annual Dinner To Be Held In Grill Room of Walker Wed. Evening

Technology oarsmen will hold their annual banquet and initiation of the M. I. T. Boat Club on Wednesday at 6:30 o'clock in the Grill Room of Walker. The banquet will be attended by all members and candidates for crew including the freshmen as well as managers and assistants.

The initiation will take place immediately before the banquet and will add eight new members to the Boat Club. The names of the initiates are: R. M. Trimble, E. F. Thieler, J. W. Regan, R. H. Valentine, W. C. Miller, and R. P. Glenn, all of the class of '33. R. H. Yates '31, and D. W. Fetters '32. Coaches Haines and Sutherland will speak and Coach Haines will preside.

Although training is following the regular light winter schedule on the machines, the number of men turning out has been unusually large and prospects for next year's crews seem very good. The Varsity practices from 5 to 6 on Tuesdays, Thursdays, and Fridays while the yearling oarsmen come out for an hour's drill on any three days of the week.

L VICTORIOUS OVER K AS SEASON CLOSES

Nichols and E-F Winners With Runkle and L Runners-up

Ending up the regular inter-dormitory basketball season Wednesday night, L gave K a lacing 40 to 10. The game meant nothing in the tournament, because neither were contenders for the championship; but K tried hard to pull themselves out of the losing column. Schneck of the winners scored fourteen points and was followed by Levene, a team-mate, who countered ten. Eder and Ansel of the losers both scored four points apiece. The lineups were:

The final standings are:

OLD DORMS	W.	L.	P.
Nichols	5	0	1000
Runkle	4	1	800
Crafts	2	2	500
Atkinson	1	3	250
Ware	0	2	000
Holman	0	4	000
New Dorms			
E-F	5	0	1000
L	4	1	800
G	3	2	600
'93	2	3	400
'01-D	1	4	200
K	0	5	000

Campaign Launched to Sell Christmas Seals

Partly due to the unemployment situation which has affected health conditions, the Cambridge Tuberculosis Association has made an appeal to the students of the Institute to aid a worthy cause by purchasing a large number of Christmas seals. The proceeds will go towards the sanatorium care of children threatened with tuberculosis, Sunshine Camp for undernourished girls, educational work for children and adults, and a clinic for the diagnosis and treatment of cancer. Last year out of the 984 men who received seals through the mail, 258, whom the association wishes to thank, bought them.

"TECHNICALITIES" IS NAME OF TECH SHOW THIS YEAR

Another Musical Revue of the Same Type as Last Year Is New Offering

SKIT CONTEST NOW OPEN

Adolph H. Feibel '32, John M. Cleveland '31, Are Authors of Book

"Technicalities" has just been announced as the name of Tech Show 1931 which will be a musical revue consisting of about sixteen skits in the short, snappy and humorous vein of those of last year's production, interspersed with musical numbers. The Boston performances will be at the Fine Arts Theatre from March 17 to March 21.

The book was written by the same students who wrote "Snobberies of 1930" last year, Adolph H. Feibel '32, and John M. Cleveland '31. Eugene S. Clarke '34, Carl Connable '31, and Robert M. Rossi '33 have written the music for the show. Langdon Matthews, to whom much of the success of last year's performance was due, is directing the production. He has been chorus coach of Tech Show for the last four years, and this year he is in charge of the cast as well.

Poster Design Contest Now Open

Prizes of six and four tickets for first and second prizes, respectively, are offered for the winning designs in the poster contest. The drawings should be submitted on a sheet of cardboard 14 by 20 inches and should measure 11 1/4 by 18 inches overall. It must contain the name of the show "Technicalities" as well as Tech Show 1931. Only one color in addition to black and white may be used. Differences in values may be obtained by using the black and one color in the form of lines or dots are allowable. The contest closes Monday, December 22. Course IV students will be given sketch problem credit for designs awarded a "mention" or better.

Willis Fleisher '31, General Manager of Tech Show, announced that although there were many sketches turned in for the Skit Contest, none of them were acceptable. These manuscripts are now being held at the office of the show and the authors may obtain them there.

Orchestra Tryouts Thursday

Tryouts for the show orchestra will be held Thursday afternoon in the East Lounge of Walker from 5 to 6 o'clock. In all 14 pieces are needed and there is a chance for everyone interested. Men coming out are requested to bring instruments and music stands.

ORDER ISSUED FOR BAND PROMOTIONS

Appointments in the band were announced in a special order issued by Lieutenant Colonel Eddy last week. The men named in the order are: Fletcher L. Barrows '33 student first sergeant; George L. Colburn, Jr., '33, Henry W. Forbes '33 and Samuel S. Goldstein '34 student sergeants; Ernest J. A. Greenwood, Jr., '34 student corporal; Roger S. Brigham '34 drum major; Reuben M. Haines '34 horn; Adam Haug, Jr., '34 and Charles F. Hill '34 bass; Samuel W. Joel '34 clarinets; Thomas LaCava '34 and Harold C. McKay, Jr., '34 trumpets.

SCIENCE STUDENTS VISIT TECHNOLOGY

Thirteen science students and an instructor from the Milton Academy visited some of the Institute laboratories Friday afternoon, and were served supper in Walker Memorial at the completion of their tour. The group was greeted by President Karl T. Compton, Professor Edward F. Miller '86, Head of the Mechanical Engineering Department, and Professor James R. Jack, Head of the Naval Architectural Department.
