As We Like It
When a Shavian drama is being presented, the audience comes expecting not only cleverness, vivacity, and seriousness, but also a profusion of new and radical ideas and controversial criticism on one subject or another. The first part of his latest contribution to his country's stage work is purely serious and 100 per cent. interestingly so. It is witty, charming, and amusing, but it is also overwrought, over-burdened, and disquieting in its views. The story of the younger generation that Shaw is born to concern on new age, for all the plays of the lower generation is that of Social progress and equal rights of the sexes. The plays of the older generation is that of Social progress and equal rights of the sexes. The plays of the older generation is that, of Social progress and equal rights of the sexes.
