Professor J. W. Williams, Department of Chemistry, University of Wisconsin, will deliver a lecture on "Recent Dynamic Constants and Their Relations to the Problem of Atomic and Molecular Kinetics." The lecture will begin at 8:00 P.M. in the Main Building, room 102.

**Massachusetts Institute of Technology**

**Thursday, March 12, 5:00 P.M.**

**Professor D. H. Andrews** of the Department of Chemistry, Johns Hopkins University, will give a lecture on "Human Spectra and Molecular Dynamics."

**CO-EDS ARE IMMUNE TO TLOES OF LILOE**

Professor J. W. Williams, Department of Chemistry, University of Wisconsin, will deliver a lecture on "Recent Dynamic Constants and Their Relations to the Problem of Atomic and Molecular Kinetics." The lecture will begin at 8:00 P.M. in the Main Building, room 102.
