Laboratory to Determine Fitness For Career Advises Many Students

Johnson O'Connor Presented Tests

A test of the aptitudes of its men is the sole function of any educational institution. Thus, the determining of aptitudes is the function of the teachers of this course, and the tests are the means by which aptitudes are determined. The tests are designed to determine the aptitudes of the men in various fields and to determine the aptitudes of the men in various fields of study.

The tests are of two kinds: aptitude tests and intelligence tests. Aptitude tests are designed to determine the aptitudes of the men in various fields of study. Intelligence tests are designed to determine the aptitudes of the men in various fields of study.

Aptitude tests are of two kinds: aptitude tests and intelligence tests. Aptitude tests are designed to determine the aptitudes of the men in various fields of study. Intelligence tests are designed to determine the aptitudes of the men in various fields of study.
