**UNDERGRADUATE RICHARD'S CUP RACE**

Those eager to participate to represent the classes in the Richard's Cup shall lay on the river Monday, all men who are registered in the classes, are physically fit, and who do not row on one of the three first variable crews are eligible.

**Inaugural List**

James A. Sweeney '34, Warren N. William '34, John Lawrence '32.

In Room 1528. The Golden Chain Auxiliary shall also be set up and in operation. On the same floor will be the exhibit of the Radio Society, consisting high speed transmission of the telephone. The Teletype set of the exhibit is one of the intricate devices used by the Associated Press Service. A demonstration of this equipment is the original machine to receiving sets all over the country. It operates on the principle of a master set, automatically tuning out the words as they are transmitted to the receiving sets. The society will receive messages, free of charge for transmission to any part of the United States. Associated Press Wire, by means of a signal system, is transmitted by means of a system of receiving sets, all over the country. It operates on the principle of a master set, automatically tuning out the words as they are transmitted to the receiving sets. The society will receive messages, free of charge for transmission to any part of the United States. Associated Press Wire.
