BARKER TO HEAD FRATERNITIES FOR YEAR OF 1931-1932

Kimbie Elected Vice-President at Conference Meeting Last Night

CONCLUDES YEAR’S WORK

At the last regular meeting of the interfraternity conference last night, efforts for the coming year were summarized by President Barker, who is about to head the conference for the year of 1931-1932.

As Barker’s assistant, John M. Kin-

nie, was elected to the office of Sec-

etary, William M. Hall, Jr. was ap-

pointed chairman of the executive com-

mittee, and Edward S. Jones and John

Barker were elected members of the

Executive Council.

Sophonies Meet Seniors Tonight

In Baseball Game

Junior Freshmen遇 Freshmen in

Outing for Final Game

For Last Week

Because of the rain and cold weather,

the baseball game has been postponed

from last Saturday to this afternoon.

The game will be played at the field

behind Alumni Hall.

Games scheduled for last Thursday and

Friday between 31 and 32, and 32 and

33, respectively, were both postponed.

The game for last Friday night, which

was postponed to Friday afternoon, was

also postponed to this afternoon.

Harrison and Feustel to Pitch

Harrison and Feustel will start the game

for the Engineers tonight. Feustel is expected to do a good job of it. These two both showed well against the Freshmen last Wed-

dnesday evening. They will be pitched to the first bases and remain there until the team is on base. Feustel is a regular first baseman for the Engineers and has been president of the organization for the past three years.

Even Fight Predicted, With Good Men Distributed in All Events

New Hampshire University is expected to challenge the Engineers with a strong team and it is expected that the Engineers will make a good showing in all events.

"Much has been said" about the subject of an industrial address which will be given by President of the Newport News Shipbuilding Company at the Institute this afternoon.

The president is expected to discuss the problems of shipbuilding and to touch upon the subject of the future of the industry in the United States.

STYLUS ELECTS NEW OFFICERS FOR YEAR

Stylus Appoints Committee To Investigate Activity

In order to elect officers for the coming year, the officers of the Stylus, the literary society of the New England section of the American Chemical Society, have appointed a committee to assist in the election.

Testing Machines of Great Power

Perform Spectacular Experiments

Those carried on in Testing Materials Laboratory

Use Its Aid

Capacity of 1,000,000 pounds, extraordi-

nary testing machine in existing Testing Materials Laboratory on the campus.

The machine is capable of testing steel bars to a maximum load of 1,000,000 pounds. It is used in the work of determining the strength of materials under all conditions.

Rounding Hill Is Scene of Intensive Research Work By Technology Men

Large Airport Among Many

Features at South Dartmouth

Round Hill, an estate of 600 acres situ-

ated on the north eastern side of New Bedford, has become the center of research work in the fields of aviation, meteorology, and navigation.

The estate was purchased by the New England Aeronautical Association, a group of men interested in aviation, for the purpose of setting up a test field for airplanes.

In addition, a large amount of research work is being done on the field, the results of which will be published in the near future.

T. E. N. Presents Electrical Issue As Its Final Number

Posters of Unique Nature Are Used In Calling Attention To Last Issue

Announced by a series of unusual posters, the latest issue of the Tech News, the student newspaper of the Technological Institute, is now being distributed.

These posters have been designed and printed by the students of the Institute and are expected to increase the circulation of the paper.

PL DELTA EPSILON SUBSCRIPTION RISES

Increase In Technique Signups Necessitates Change

For an increase in the price of the weekly newspapers, the members of the Delta Epsilon fraternity have responded by increasing the subscription price.

The new price, which is $2.00 per year, is expected to increase the revenue of the fraternity and help support the publication.

In the past, the price of the newspapers was only $1.50 per year, but the increase is necessary due to the high cost of printing and distribution.
