SENIORS WIN WILD GAME TO SHARE LEAD

Defeat '33 by 12-4 Score To Back Baseball Lead

(Continued from Page One) for the honors in the seventh, getting on as a batter's chuter and sending in an array of singles. Sophomores and Freshmen Tonight

Tonight, the Sophomores will meet the problem, and it is hoped that the Freshmen will meet the Junior honors. The Sophomore and Freshman teams have won two wins and one loss in the home games. The Sophomores and Freshmen play tomorrow between the two will prove to be interesting, as the Sophomores go to the play-off for the championship.

ENGLISH THEMES

Members of the Class of 1931 may obtain their themes in first-year and second-year English at Room 2-306 or on the Harvard Square office between 9 a.m. and 1 p.m. from Monday to Thursday.

No Action To Be Taken in Recent Dormitory "Riot"

No Damage Reported Despite Exaggerated Reports in Boston Papers

(Continued from Page One) windows crying "no water," while the water companies immediately corresponded that there had been a "rush" as delays of water came, the Sophomore floor was not so pacific as to enter the buildings. Finally, enough men gathered to start a fire, and their actions from then are well known to everyone.

Fireman Have Good Time The Students who responded to the claims took the affair lightly and had a good time. As the students, except for one lone man, from whom the "victory" took the notice. No one got wet, not even the Sophomore floor, and all of them were ready to face the firemen at a moment's notice.

Captain Richardson, who lost his hat in the fire, finally got hold of it and turned the second floor of "T" seeking its owner. He succeeded in finding and presented the hat.

LAUNCH DRIVE TO RETAIN A.A. CONTROL

(Continued from Page One) which is still in the apical stage of the appeal. Section 2 has immediately made a decision in the support of the four undergraduate delegates, both in the broad fields, as well as, and two other men who shall be members in athletic or faculty matters. Students to Take Control

The genius of making the engine from the officers of the Association, the four voting power to three (see Ap 9:30, p. 470). As the engine is not without its defects, the fact that the officers of the Association have not a direct control of the funds in the event of the present proposed amendment to the constitution. Final Examination of the Association will be taken over the proposed amendment to the President of N. E. A. will have to pass over the reported of the conference organized by the Association having one vote. Reference to the executive of the Northeastern Conference are drawn directly from the resolutions that served as the basis of the meeting, which in each manner are accepted by the students. The Northeastern Conference passed the half-century mark of effective, effective control of undergraduate athletes by the undergraduate themselves. Students are now approaching the fifty year mark since the first supply of supplies was made to the office. The privilege of using the athletes of the Northeastern Association is diminished permanently.

Notice Seniors desiring a photostat copy of their complete scholastic records should make application to the Registrar of the New England Association.

SENIOR WEEK PLANS WELL UNDER WAY

Professor Rogers To Speak At Opening Roque

(Continued from Page One) Professor Rogers will be followed by the reception in Walker Memorial, the grand finale, and will be attended by builders and engineers interested in this work.

"THE SPECTATOR"

The Spectator

Col. W. A. Starrett Will Be Guest of Course XVII Today

Builder of Empire State Will Lecture This Afternoon

(Continued from Page One) for the Honor of the Empire State Building and from 2 to 1.

Immediately after the lecture which was heard by the Sophomores and Freshmen, Col. Starrett dispelled his speech and took a bow, after which the discussion was continued. Colonel Starrett concluded the lecture by the question, "Do you think that the student committee in charge of this project is going to get along?"

Graduate of Michigan Col. Starrett is a graduate of Michigan, having taken degrees in civil engineering at that school. After graduating he retired from the construction force with the George Eastman Company.

On the field, Colonel Starrett counseled the Thompston Starrett Company which engaged in construction activities throughout the United States.

During the World War he was chair man of the Engineer Construction Committee of the Council for National Defense and in charge of the government building program, including the construction of many important objects.

Has Written Much Colonel Starrett has written much on his field, and his articles on the construction industry, many of which have appeared in technical journals. He is the author of "The Structure Men Who Buiit Them," which was published last year.

In May of last year he was a mem ber of the American International Congress of Building, held in Paris, and was the only American member walked up and down the main stage to make this a huge success.

The prices for the various events are as follows:

Blanket Ticket, $19.00; Combination Ticket, $16.00; Separate Tickets: Breakfast, $1.25; Lunch, $2.50; Dance, $1.00; Supper, $2.50; Concert, $1.50; Picnic, $1.00; Banquet, $3.00. No tickets are sold at the door.

The Spectator, a beautiful narrow twin model, is in tan and black.

"The "Bandy," a beautiful narrow toe model, is in tan and black.

The "Mayfair," a medium English toe model ten and black.

COES & STODDER
10 to 14 SCHOOL STREET

WHERE on a night like this?

"After the Game?"

BeforeSHOW?

or at MIDNIGHT?

Ask your girl what she wants. She probably knows more about good music and good company than you do. She knows how to choose.
