Smoke a Fresh Cigarette

JUST as the proof of the pudding is in the eating, so is the proof of a cigarette in the smoking. And millions of men and women are now discovering a brand new enjoyment since Camels adopted the new Humidor Pack. The mildness and the flavor of fine tobacco vanish when coughing or evaporation steals the natural moisture out of a cigarette.

Now, thanks to the new Humidor Pack, which keeps the dust and gremens out and keeps the flavor in, Camelas, wherever you find them, are always factory fresh and in perfect mild condition.

Camel smokers have already discovered that their favorite cigarette is better now than ever before.

If you haven't smoked a Camel recently, switch over for just one day, then quit them, if you can.

Air-sealed in Camel's moisture-proof Cellophane is all the goodness of finest Turkish and mild Domestic tobaccos expertly blended.

No harsh, dried tobacco to burn the throat. No peppery dust to sting delicate membrane—just the cool mild aroma of fine tobacco.
