WEDDING

Mr. Peter P. Alexander

Monday, May 25, 4:00 P.M., Room 1-156

A nsement of the wedding plans is "The Mechanics of Welding and the Industrial application," being given during the second term under the auspices of the Department of Metal Structure.

Franklin E. Hildreth, Chairman of the Standards Committee that has been at work for years on the problem of fixing a new width for standard motion picture film, will address the audience on "Modern Methods of Film Fixing." The new width, with which the Committee has been experimenting, provides for a sound track of adequate width and a uniform width for the rest of the film.
