EDGEBURGH SMOCKING TOBACCO

Edgborough is a blend of fine old tobaccos, with its mellow taste enhanced by Edgborough's distinctive and exclusive tobacco processes. Edgborough - the pipe of the finest smokers, the favorite of the greatest men of the age.

Students: TO RENT

PIANOS - Small, new, high-grade. Why pay $20 to $30 more per month for old piano refurbished?

RADIOS - New, beautiful, high-grade. Installed and guaranteed.

8 PER MONTH FOR NINE MONTHS AND IT IS YOURS

C. C. MOIR

23 Massachusetts Avenue

Cambridge, Mass.

The Photo-Electric Integrator, a new type of calculating machine developed by Drs. Thomas E. Goss and Frank P. Alexander of the Department of Electrical Engineering at the Massachusetts Institute of Technology, has been recently brought into use in this laboratory. The machine is a photo-electric integrator of a rather novel design, in which a number of phototubes are placed in a circular array of multiple photo-electric cells, which is housed in a hemispherical chamber. The design is based on the principle of using the photo-electric cells as a means of generating electricity, and the machine is capable of performing a wide variety of calculations, including trigonometric functions and integrals, with a high degree of accuracy.
