Hayden Pquiries Appropriations for Student Aid

Communication Road at Annual Meeting of Members of the Corporation

"Educational institutions that give the world initiative to students during the present trying economic period are not only giving a sense of increase in unemployment," said Charles Hayden, Hayden, Ross & Company, New York, in a communication to the members of the Corporation, regarding the secret of the Technology Loan Fund of $1,000,000 established last year to assist in financing the education of students who have had to have their financial aid cut off.

"We expect that amount will be increased by the end of the year." It is anticipated that the fund may receive a new significance as a time when financial aid is more available to students. Hayden is a graduate of the Institute and a member of the Corporation, and is chairman of the committee supervising administration of the fund, which was subscribed to by a group of prominent alumni and friends of Technology under the leadership of General Howes, president of the General Electric Company.

**SEEDED MEN WIN IN FALL TOURNEY**

Weekender Players Won Out in Early Matches With Two Rounds Over

Tennis these days is moving slowly, partly because of the weather, or perhaps lack of interest. What ever the case may be, quite a few of the matches have been delayed, either to the benefit or disadvantage of competitors, and only a few have been completed.

In the first round, a number of seeded players had eliminated their opponents through their first matches. Tomor Rowsom has been successful in the first round, and had beaten his opponent in the second round. The game score of the first set indicates a 6-1, 6-2, 6-1 defeat for Rowsom.

H. P. Ross, also has made it through with a minimum of competition without the need to undertake a set. Fred Pfeiffer has had a bit more difficulty in eliminating his opponent. Dick Hanley, the other of the first four, was not as successful and his way not so successful to the third round. Occasional showers have not been handicaps that have slowed down the advance to this round. Endy Rouse, in the second round of his opponent, has been the best of the four so far, and he has been able to get through. The game score of the first round indicates a 6-1, 6-2, 6-1 defeat for Rouse.
