SOPHOMORES WHITWASH FRESHMEN 13-0 WINNING EVERY FIELD DAY EVENT

Success Encourages Course XV To Continue Laboratory Research

Industrial Expert To Conduct Fall Week Course XV Seminar

As a result of the week of intensive study which has been given to the students of Massachusetts Institute of Technology, Mr. Rand will issue a series of papers on the fundamentals of business and engineering and he will be available for consultation on any subject of interest to the students.

Sophomore Team Breaks Field Day Record In Fast Race

MANY VISITORS PRESENT

Tonight at 6 o'clock the drive starts in front of the college, with a large group of freshmen and sophomores, and the students will be awakened by the ringing of bells.

Dr. Karl T. Compton

The drive will start tomorrow morning and will continue throughout the day.

With a budget of $1300 as the goal, the drive of the Technology Christian Association started tonight with initial activities in the freshman dormitories. The purpose of the drive is to secure funds in order to secure the best possible future for the students.

SOCIAL ACTIVITIES

On meeting the amazing looks of field day, the freshmen and sophomores gathered around the fire that raged on the picturesque campus. They laughed and sang, and before long the night was far behind them.

Dean Lathrop was among the spectators, but he was so busy examining the field and the students that he didn't have time to think about his own shortcomings.

For the satisfaction of our readers we give our thanks to the students and staff of Massachusetts Institute of Technology for making this an enjoyable experience.
