VOO DOO WILL BE ON THE STANDS MONDAY

"Faculty Issue" Promises Many Interesting Remarks

Voo Doo's widely discussed and much publicized "Faculty Issue" will be on the stands for undergraduate consumption Monday. Promising a real live issue, with lots and lots of "bar stuff" on the professors, a member of the Voo Doo staff told this reporter last night that he seriously believed the latest offering to be the best yet.

The cover is in no way the opinion of the staff that they refuse even to describe it, much less exhibit an actual copy thereof. Beneath this masterpiece of art and humor, the avid reader will find much to soothe his "Professorial Complex." The editorial page will carry a short, succinct article on the late Chalmers death, and will be faced by a full-page picture of Dr. Strouton. Aside from this, there is nothing between the covers that will ever give any member of the staff a reputation for serious thought.

What makes China seem so univilized to us is the fact that she carries on her ways without borrowing from other countries.

Three More Games for Soccer Teams

Electron from Paste Three

and his second on a pass from Red Scarfe. Lovery scored the second goal on a pass from Bocx. The freshman goalie was knocked out last week, when he dove out of the goal to cover a loose ball and was lobbed in the face by an opponent. The substitute goalie, however, played a fine game and will perhaps be called on to report his performance tomorrow. One week from tomorrow the yearlings play Harvard Freshmen in their last game of the season. All members of the freshmen team are to report at the track house at 12 o'clock tomorrow.

Keep Kissable

WITH OLD GOLDS

It's not only good manners to avoid offending others with your smoking. It's good sense. The best way to insure your own enjoyment.

For the same reason that OLD GOLDS do not taint the breath, or discolor the teeth... for that very reason OLD GOLDS are a finer smoke... easier on the throat and more delightful in taste.

Pure tobacco... that sums it up. Sun-ripened tobacco... sweetened by nature herself. Tobacco so good it needs no added flavoring.

If you'll take a dare... and try natural-flavored OLD GOLDS for a day... we predict OLD GOLDS will win another life-long friend.
