Differential Geometry
Dr. D. J. Strick
Tuesday, November 24, 2:00 p.m., Room 2-238
Dr. Strick will deliver another lecture in his series on the history of differential geometry.

MEETING OF A.S.C.E. STUDENT BRANCH HELD

(Extracted from Page Two)

that through their efforts, the river is most unusually deep. Indeed it will step gradually into the streams. A party without a roadway will be made of the initiated book. Shoulders, trees and grass will be planted, and there will be by-paths for those interested in nature. At present divers are giving attention to making small conduits to take care of surface drainage when the river runs above normal. Four divers are working to replace these drains which will enlarge the old wooden ones in use. These must be abandoned because of the weight of the fill. These conduits lead off from a breakwater conducted which leads to the embankment. A special underwater cement is being used for joining the sections.

Charles M. Thove, '22 president, presided at the meeting, which was the first of its kind last spring. Professor Charles M. Spofford, Jr., head of the Civil and Sanitary Engineering Department, introduced the guest speaker.

College Men’s Overcoats

Outstanding in Style and Value

College men know STYLE ... they’ll find it here ... likewise outstanding value in long wear and satisfaction.

Our new Ruglass, of imported Irish flax, are extremely good looking and exceptional values ... in plain blues and grays ... blue-grays ... and unusual browns ... big loose coats — with outside patch-flap pockets.

Oxford gray or blue coats — with or without velvet collar — full silk lined — double or single breasted — for the well-dressed young business or college man — at moderate prices.

Scott Company
336 to 340 Washington Street, Boston

"... and don’t forget to keep kissable"

WITH OLD GOLDS

The marriage ceremony doesn’t demand it. But the Needywoods who take OLD GOLDS as their wedded choice in cigarettes are showing a nice consideration for each other.

For OLD GOLD is a pure-tobacco cigarette ... 100% natural-flavored. Free of those greezy flavors that burn into clinging, staining, and breath-tainting vapors.

To prolong that honeymoon charm, smoke pure-tobacco OLD GOLDS. No throat rasp, no smoker’s cough can come from their clean, sun-ripened, nature-flavored tobacco. And they leave no objectionable odors either on your breath or clothes.

NO "ARTIFICIAL FLAVORS" TO TAINT THE BREATH OR STAIN THE TEETH ... NOT A COUGH IN A CARLOAD...

Weigh this carefully:

You can’t beat real quality, and we won’t compromise it!

That’s why we hand-tailor our own clothing — the best clothing that can be made, and we sell it at the reasonable prices that we, as manufacturers, can accomplish.

Any man’s desire for good taste and workmanship in his clothing can be achieved. Any man’s desire for good taste and workmanship in his clothing can be achieved.
