let's all go to TURKEY

Eastward ho! Four thousand miles nearer the rising sun—let's go! To the land of mosques and minarets—so different from our skyscrapers, stacks and steeples.

Let's see this strange, strange country. Let's see the land where the tobacco* grows in small leaves on slender stalks—to be tenderly picked, leaf by leaf, hung in long fragrant strings, shelter-dried and blanket-cured. Precious stuff!

Let's see this strange, strange country. Let's see the smooth, "spicy" Chesterfield blend.

It is this just one more reason for Chesterfield's better taste. Tobacco from far and near, the best of their several kinds—and the right kinds. And pure, tender-cured cigarette paper, the purest made. The many requisites of a milder, better smoke, complete!

That's why they're GOOD—they've got it all the more enjoyable. As the fallen Champ, a cheerful, gambling drunkard, Walter Evers does some of his best acting. The part is realistically played, and as a team, Jackie and Beery put over an excellent performance. If you wish to see the best of this type of picture he should by all means witness the showing of "The Champ" at the States.

The film is supplemented by a comedy with Zara Peets, and the real news reel and Mickey Mouse cartoons films.

Mr. Rosen will talk on the Hydrogen Molecule problem.

Mr. Walker, the President of the Students Union in accordance with laws requiring institutions to smoke publicly.

In November, the North Carolina which permits students pay least and "flunkers" pay more rivalry have been discarded at Ohio University. The money saved in the purchase of band tickets for this very promising date may be furnished by the student government. The tickets for this game may be purchased at the offices of the men's and women's athletic associations, the men's being handled by the Social, and the women's by the Female. The cost of the tickets is $1.00.

Mr. R. E. C. M. has been appointed by the President of the University to put before the faculty a plan for the construction of a new gymnasium. The plan is based on the idea of providing a building which will be used by the students for both athletic and recreational purposes. The gymnasium will be located in a central position on the campus, and will be equipped with modern facilities for instruction and recreation. The cost of the project is estimated at $50,000. The plan is expected to be completed within the next two years.
