**VOSS PRESENT AT HOME CONFERENCE**

Representative of Course XVII

**Tells of Development**

At Last Meeting

Returning from the President's Conference on Home Building and Home Ownership, which met in Washington last week, Professor W. V. Vogt, who represents the Department of Agriculture, tells of the development in the country.

The President's Conference was a great success and a benefit to all. It was very well attended, and the papers given were of the highest quality. The Conference was held in the National Geographic Society's auditorium.

The President's Conference included a wide variety of subjects, ranging from the history of home ownership to the current state of the housing market. The Conference also included a number of panel discussions, where experts from various fields discussed the challenges facing the housing industry.

The Conference was well-received by attendees, who found it informative and engaging. The papers given were of the highest quality, and the discussions were insightful and thought-provoking.

**ATHLETIC SITUATION WILL BE DISCUSSED**

School and College Association

To Consider Over-Enthusiasm

In view of the fact that the present men are quite enthusiastic about the college and collegiate organizations, there is a feeling that some changes should be made. The college and collegiate organizations may have gone too far in their enthusiasm.

Attendees at the conference were divided on this issue. Some felt that the college and collegiate organizations are important and should be encouraged, while others believed that too much enthusiasm could be detrimental.

In the end, it was decided that the college and collegiate organizations should be encouraged, but that the enthusiasm should be moderated. The college and collegiate organizations will be discussed further at the next meeting.
