BOAT CLUB TO GIVE AN INFORMAL DANCE
To "Put Crew On The Map" and Help Freshman Crew

For the first time in its history of its short career, the Tech Boat Club has announced several plans for an informal dance. The afloat, which will be held on the first Friday after the opening of the season, will be open to all at a price.

Primarily, the intentions of the organization in presenting the dance are to enthrall the many member of the committee in charge who said, "It's being done just to put crew as a map a little more at the Institute. The Boat Club wants to produce a little more interest in crew."

Extra Money To Freshmen
Any prizes which may be gained from the enterprise will be pooled in a fund for the freshman crew. Should sufficient money be raised and put in the fund, it will be used by the Boat Club to send the freshmen to Pennsylvania for the next regatta.

The committee managing the dance is composed of John Lawrence '32, chairman; Allan L. Eason, a Graduate Student in Naval Architecture and assistant coach of crew, William A. Kirkpatrick '32, Albert W. Dunning '32, and Henry D. Humphrey '32.

Scholarships, Room 9-104, we offer you Mick 'Arry, in order to receive consideration, at the North meeting of the Committee. This applies to recognizance of growth as well as new applications. Belated notices paid will be waited on a waiting list and will be considered subsequently only if funds are available.

MORTAL AND BRAWL

Starting actual fighting at the front times takes during the World War will be shown at a Mortar and Ball smoker Wednesday night. Pictures taken at a Coast Artillery Summer Camp will also be exhibited.

All members of the R.O.T.C. are invited to attend. Doughnuts and cider must be filed with the Secretary of the Committee in order to receive consideration of growth as well as new applications. Belated notices paid will be waited on a waiting list and will be considered subsequently only if funds are available.
