Health Education in Boston will be subject to survey

First to be conducted in large City will be carried out by Miss Parsons

The first comprehensive survey of health education activities in the city of Boston is being undertaken by Miss Ruth L. Parsons, health education director of the department of biology and public health at the University of Massachusetts Medical School.

By understanding the kind of the first find that the loft of every great attempt in large city, will include the survey was conducted by the department of Health Education; public, private, and public health; schools; city health institutions; private hospitals, and community groups.

In strengthening Health Education

The survey will also determine what groups are carrying on work in health education in Boston, and the quantity, quality, and adequacy of that work. Of the facts of these facts, it is believed, meets the requirements may be made for strengthening the city's present health education program.

This work will be carried out under the direction of Miss Parsons and the cooperation of the medical school in the Boston Health League.
