Four Regular Races Will Make Up Crew Schedule This Year

Cardinal Club To Be Host For N.E. Clubs Convention

Entertainments During Three Days Ahead

Meet At Poughkeepsie And For Olympic Tryouts Also

Attention should properly be directed to Cleve's dissertation on Dick Bell on the front of the campus newspaper. Cleve is no stranger to athletics, and has a good record in his usual good job. Bell has done some very wise running this season, and Cleve can justly anchor the back of the team.

After a rather quiet and unspectacular start, the local standpatters did things up very brave, the title boys laying them all low last Saturday at a meet at Army. In defeating Navy, the Technology team turned in one of its best performances, since it has been put under the guidance of our dear Captain, the Junior Civil Engineer.

These Engineer students shied up with various crack shots from here and there. The Army team had trouble enough getting a third, while those crack troops from V. M. I., normally so slow, finally added. The whole Technology team managed to gather in about twenty more points than their nearest rivals. The remarkable Mr. Kelly had the highest score of the whole meet with 320 out of a possible 300.

Indecision still lingers in the mind of the money-holders of the factory as to whether they will aid the local clubs. From the wonderful weather outside of late, it doesn't seem to matter a great deal, but it would be some con- venience to those old lady Nature will permit.

And comments seem to indicate that the rock-pushers are rather eager to get at it.

Two of them are the baneau and three of the 100-yard class. An article by the Editor on the proper construction of the races, and the other two specialties are the annual Pennant regatta and the 100-yard Olympic tryouts to be held at Lake Waban, Sun, May 1.

Four events were Gosw Go To Yale On April 21 the Beavers go to Yale where they may meet the champion of the East. There are already indications that the meet will make the history, the V. T., and the other two specialties.

One of the last events of the season was the New England Intercollegiate Track meet, which was held at the Harvard, Yale, and Dartmouth varsities. The varsity meet was the last event of the season, with the 100-yard dash events being the first on the agenda.

The records of last Saturday's trials are:

Kiley 297 Points
Hendry 276 Points
Lyon (Capts.) 266 Points
Hendry 266 Points

Dr. R. Burns Of Bell Laboratories Holds Colloquium Monday

Three E. E. Colloquium To Be On Corrosion Problems In Communications

Through the courtesy of the Bell Telephone Laboratories, the Electrical Engineering associate of a series of three colloquiums on "Electrochemical and Physical Aspects of Corrosion Problems" will be held by Dr. R. M. Burns, assistant clinical di- 

Billy Bell Laboratories

The following reference, which Dr. Burns suggests, will be found near Mr. Maynard's desk in the Central Library: Report of the American Committee on Corrosion, 112 pages, containing the text of the seminar given at the University of California in May 1929. This seminar was attended by a large number of people interested in corrosion problems.

Consider your D-A-men!

The next time you run down to the big town for a week-end con- 

New low rates at the modern Hotel Empire are kind to you by saving 10, 150, and 200 dollars. For a single, $2.50 for two, for quality accommodations.

This is the year for EUROPE $106 (up)

For a delightful journey in mod- 

Weekly round-trip of 800 - 

A UDIRED vacation budget will take you to Europe this year. Tell your "Red Star and Red Star" travel agent to plan your trip with every comfort, good food and sunny days, at fares from $106 to $187, 50c round trip. Air fares are only one of the first class services. You can actually visit Europe and save money.

For information, please choose from, including, Matador, world's largest;

Handy, Penfold, and many others. Send for booklet about Tourist Class. 506 Boydston Street
