Field Day Planning With Mass Meeting

Sophomores Hope to Wipe Out Defeat of Last Year With Victory

A freshman mass meeting will take place Tuesday, October 4, at 6:00 o'clock in the afternoon in Room 350. It is a discussion plan for Field Day. Talks will be delivered by the coaches of the various sports, and the meeting will be conducted by Edward L. Aitch, '34, president of the Junior Class.

In order to increase the enthusiasm of the entering class, cheerers will be led by the following members of the class of '33: Ernest Blades, section 3; Wilford Post, section 2; H. R. Bode, section 1; C. Bol- man, section 2; and F. Peterson, section 3. The customary election of section leaders will be held next week during the freshman chemistry lab hours. Instead of electing one man from each section as has been usual during previous years, each section will elect three men.

MANY COLLEGES REPORT FEWER ENROLLMENTS

UNIVERSITY OF WISCONSIN

Enrollment has dropped between 1,000 and 1,200 from last year's figure. The drop in the number of freshmen is over 250.

COLGATE UNIVERSITY

Approximately 973 students enrolled this semester. The decrease in student enrollment is due mostly to the drop-out of upperclassmen, since the freshmen and upperclassmen enrollment is about the same as last year.

FIRE EXTINGUISHERS

IN TROUBLE AS FALL WINDS BLOW

It is reported that the fire extinguishers are in a critical condition. When the wind blows, they are apt to be blown out of their niches. In order to prevent this, some kind of locking mechanism is contemplated. The first step will be to remove the doors from the rooms, leaving only the frames in place. The doors will then be replaced and the locks installed. This will prevent the wind from blowing the extinguishers out of their niches.

THE CALL OF THE WILD

"Nature in the Raw"—as portrayed by Paul Bunyan, America's forest animal painter—began the season's struggle between the fearless wild dog and the cautious wolf... as described in Jack London's famous novel of combat against wild nature in the frozen north.

Nature in the Raw is seldom Mild

—and raw tobaccos have no place in cigarettes

They are not present in Luckies... the mildest cigarette you ever smoked

WE buy the finest, the very finest tobaccos in all the world—but that does not explain why folks everywhere regard Lucky Strike as the mildest cigarette. The fact is, we never overlook the truth that "Nature in the Raw is Seldom Mild"—so these fine tobaccos, after proper aging and mellowing, are then given the benefit of that Lucky Strike purifying process, described by the words—"It's toasted". That's why folks in every city, town and hamlet say that Luckies are such mild cigarettes.

"It's toasted"

That package of mild Luckies
