Dramashop Finances and Management Are Good Reports Professor Fuller

In an interview yesterday, Professor Jean Matthew Fuller, director of drama at the Institute, gave an internal report on the condition of Dramashop. For the past five years Professor Fuller has had charge of the only purely dramatic organization at Technology.

The management of Dramashop has been excellent. Especially valuable have been the efforts of many students to support this activity. "Professor Fuller," said Professor Steward, "has always been receptive to the efforts of students who have aspirations to do something in the drama department."

Continued Successful Dramashop Direction

shop have facilitated production of its plays.

Student Support Helpful

The support of a small group of students has been almost essential. Although it was the original policy of Dramashop to produce nothing but American plays, work on the first few productions proved that this plan must be changed, since the equipment of the Crowne Room stage can be insufficiently inadequate.

The Dramashop, Professor Fuller stated, is looking forward to the time when the plans for the extension of Memorial Hall, drawn up by Francis L. Gehrke, can be put to use. These plans call for a large stage which will greatly enhance future productions.

Financial Condition Good

The financial condition of Dramashop has always been good. At present the organization is running at a deficit. The reason for this is that it is not possible to run a deficit on a small organization like Dramashop. However, the deficit is not, of course, a cause for concern. The deficit is only a small percentage of the total budget, and it is expected that it will be covered by the end of the semester.

This deficit is not a cause for concern, but it is a cause for concern. The deficit is only a small percentage of the total budget, and it is expected that it will be covered by the end of the semester.

Leading Players of Dramashop Who Entertain In "The Pigeon"

Some of the best plays that have been presented, according to Professor Fuller, are "The Pigeon", "The Show Off", "Masquerade", and "The Devil's Advocate".

Dramashop's basketball team faces stiffer opposition this week than it had last week. The team had St. Lawrence last week and met Clarkson College on Thursday and Rhode Island on Friday. Both games were played in the Hangar Gym, where last year's team was unbeaten. Clarkson is now on the schedule this week, while Rhode Island cannot be counted on to do better than the Engineers last season. Since Clarkson has the reputation of having a strong team, both games should be close and hotly contested.

The Rhode Island State game was played away last year and the final score was 42 to 3.

If Coach McCarthy definitely declares the schedule too much, the team will go up against Northeastern University on the freshman team which last year was the only one to defeat the strong Syracuse quintet, one of the best in the nation.

The team is ten students six-foothers, and this fact should help the team in their game against the shorter men.

Coach McCarthy has been trying to Tom Shaw, the star of the center position. Whatever Tom, who has been playing there all along, will be leaving today for his work in the Newport game and may not be able to take part.

Shaughnessy is not included in this year's team. He will not be the center as often as McVernon and never again is a very good man to have on the floor.

Amanda To Start At Guard

If Coach McCarthy definitely declares the schedule too much, the team will go up against Northeastern University on the freshman team which last year was the only one to defeat the strong Syracuse quintet, one of the best in the nation.
