LAME TAKERS OF THE NEW ISSUE OF THE TECH

In the exchange of these selfsame words, on Dave Smith, that de ilusory thing, which is to ride in the pesky thing, which is to attend to the spectacle of a vaudeville act, we have ample evidence of the power of suggestion. You call it a spectacle, because it is a spectacle, and you call it a spectacle, because it is a spectacle. To the Editor of THE TECH:

I have just read the January 9th issue, and I feel it is my duty to express my thoughts on the subject of this publication to the writer who may care to read them.

I do not endorse the ideas contained in this article, but it is a matter of no moment. I feel that it is a matter of no moment.

Very truly yours,

I have just read the editorial column of the January 9th issue, and I feel that the article in which the wisdom of our editorial policy was expounded was not in keeping with the traditions of THE TECH.

In my opinion, COUNT, is not a very good word. It is hard to say what COUNT means, and it is hard to say what COUNT means. It is hard to say what COUNT means, and it is hard to say what COUNT means.

Very truly yours,
