Students in Lehigh University are becoming interested in archery. A regulation type target has been provided by P. R. Ziegler, '00, chairman of the T. C. A. advisory board. Water must be secured from the lake during the winter, since the pipes are laid just beneath the surface of the ground and would freeze if used. The canes have "T. C. A." welded on them in brass letters to forestall any attempt to purloin them.

Camel cigarettes are a favorite with millions of men... in plain sight.

Camels are cooler because they come in the famous Humidor Pack of welded, three-ply, MOISTURE-PROOF cellulose and because they contain better tobaccos.

A cigarette that is fresh, full of natural moisture, and blended from choice, ripe tobaccos taxes cooler than one that is harsh and acrid. For coolness, choose a fresh cigarette, made from coolers.

No tricks...

Just costlier tobaccos
