credit arrangement has been announce
d by the Junior Prom Committee. 
Thc- will be effected by having stud-
ents sign notes payable to the com-
mittee at the Bursar's office on April
1st.

Activities Allow Credit
Other activities with whom the cash
shortage has interfered have made
similar arrangements whereby stud-
ents need not forgo a dance or en-
tertainment. Each group has fixed
some date for their own dance and
the Glee Club concert have all offered
to accept credit, either by deferred
payment or check. All these activities have
been accepted in the face of unsat-
tenable circumstances causing the dis-
comfort.

abolish senior picnic
by unanimous vote

On Thursday, March twenty-second
at eight P. M. there will be a com-
bined meeting of the Radcliffe Sci-
ence Society, the Technology Biologi-
cal Society, and the Technology
Physical Society in the North Hall of
the Walker Memorial. An interesting
program is being arranged and the
admission charge for non-members
will be twenty-five cents.

Rides Price of Ticket

In addition to following the recom-
mendation of Rhines, the committee
gave, as reason for abolishing the
prices, the fact that last year's affair
lost money. It has always been a
source of trouble, and nothing will be
lost by omitting it from the program, it was decided.

Senior Week will be reduced by $3
and evening, Senior Dance.

May be back to Nature. Maybe
it's something else. I don't know
just what it is, but somehow or other
I've just got to slip out in the woods
and sit down on a log. I always take
the old pipe along. Thinking somehow seems
clearer when you are smoking a pipe. I
can fill up my pipe with Granger, and
somehow just seem to see things clearer
than at any other time.

Don't know what it is about Granger,
but it must be made for pipes—real pipe
tobacco.

Somehow, there's a flavor and aroma
about Granger I never found in any other
tobacco. When I pack my old pipe tight
and good with these big Granger flakes,
it's about the coolest smoke I ever
enjoyed. It makes me downright pipe
hungry every time I look at the package.

Some years ago we made a painstaking,
scientific study to find out, if we could,
the kind of tobacco best suited for pipes.

Down in the Blue Grass region of
Kentucky, we found a tobacco called
White Burley. There is a grade of this
tobacco between the kind used for chew-
ing and the varieties suitable for cigarettes
that is best suited for pipes. This tobacco
is used in Granger.

This tobacco is prepared by a method
worked out many years ago by Mr. J. N.
Wellman. It gives Granger a fragrance
and mellowness that pipe smokers like,
and makes it burn to a clean, dry ash.

Granger never gums a pipe.

Granger has never been on sale very
long, but it has come to be popular, and
there is much about it: We have yet
to know of a man who started smoking it,
who didn't keep on. Folks seem to like it.
