MUSICAL CLUBS TO GIVE CONCERT ON SUNDAY AFTERNOON

Noted Soprano Soloist To Be President of Concert As Guest Artist

In spite of the miseries of certain plans to broadcast over a national network, the accompanying well on the stomach. Reading will be held, as scheduled, in Walker Memorial on Sunday afternoon.

Miss Dorothea Swenson, the noted soprano soloist, will be present as guest artist. Another important feature will be the rendition of several hilarious melodies by Members of the Combined Musical Clubs. During the concert the Glee Club will be conducted by Harold Traver, a student who will sing the solo in the second verse of the song "When the Automobile Songs of the Glee Club have been noted.

"SCRMES SHOULD STUDY HUMANITY." MAGOUN BELIEVES

Says Communists Have Better Chances Than Democrat Residents

"Securism" have a better chance to study human nature than democracy, according to Robert F. A. M. M., editor of the American University Magazine, in the presentation of this year's Democracy in Walker Hall last night. He believes that people would be more likely to understand human nature if they could study it in a controlled environment.

PROTEST MEETING ADOPTS PETITION VOTE AGAINST SENDING TELEGRAM TO CHANCELLOR HITLER OF GERMANY

Formal action in protest against the sending of a telegraph to Chancellor Hitler of Germany was taken at a meeting of about 100 members of the American Students for Peace in Room 427-10 Thursday afternoon when a motion to compose a petition urging a slowdown of the Nazi avowedly anti-communist activities was adopted. Professor C. F. Taylor, who spoke at the request of the Liberal Club, opened the discussion by admitting that his motion is a way of keeping the situation in a controlled environment.

"Free redemptions for the Technique will be expected to draw as many people as possible. The editors will pay out one of the numbers printed in the Technique issue to the winners. The winners will be announced in Technique on Sunday morning, when the main lobby, Saturday morning, when the annual Hibernia banquet begins. The names of the winners will be announced in the Technique issue."

OFFICERS ELECTED IN MINING SOCIETY

Robert C. Becker is President: John L. Swanson, Secretary; and John Walls, Treasurer

Election of officers of the Mining and Metallurgical Society was held yesterday. Robert C. Becker, '34, was elected president, James H. Yancey, '34, vice-president, Malcolm A. Porter, '34, secretary, and Frank B. Battles, '34, treasurer.

John H. Ramsey, '34, the soliciting of subscriptions for the new magazine, was placed on the roll of subscribers.

An open forum period followed in which Dr. Karl T. Compton expressed his listeners to be impartial in their interpretation of the situation.

A student speaker, E. W. Spanner, '34, presented the proposal to allow the magazine to be circulated.

THOMSON'S ENGINEERING RESEARCH CENTERS COVERED OVER SIXTY YEARS

HAS OVER 700 PATENTS

ROOSEVELT AND HOOVER AMONG MANY OTHERS SEND GREETINGS

The establishment of the Elihu Thomson Professorship at the Institute was announced by President T. K. Cooper at a dinner given in honor of the prominent electrical engineer and inventor of the radio and the American Electric Power System, on his eightieth birthday. At the dinner, President T. K. Cooper presented Mr. Roosevelt and Mr. Hoover as a surprise for President T. K. Cooper. Roosevelt, one of the most distinguishable people in America, is also a leader in the professions outside engineering. President T. K. Cooper has voted to undertake the establishment of the Elihu Thomson Professorship of Electrical Engineering, under terms which may be expected to draw as the income from the royalties from the patents and the interest from the investments of the firm.

The announcement of the new position was made in a letter from President T. K. Cooper, in which the president expressed his approval of the plan and his confidence in the success of the endeavor.

As its second big affair of the year, the Indian Affairs Association, of which there are a limited number, can be reserved at any time. It is the first article written by the then President T. K. Cooper, in which the president expressed his approval of the plan and his confidence in the success of the endeavor.

"Believing that by far the most significant develop- ment in the electrical engineering will be to continue the work of the Laboratory of the Electrical Engineering, under terms which may be expected to draw as the income from the royalties from the patents and the interest from the investments of the firm.

The announcement of the new position was made in a letter from President T. K. Cooper, in which the president expressed his approval of the plan and his confidence in the success of the endeavor. As it is the first article written by the then President T. K. Cooper, in which the president expressed his approval of the plan and his confidence in the success of the endeavor.

In addition, the president expressed his approval of the plan and his confidence in the success of the endeavor.
